Background:

This ordinance will authorize the Director of Recreation and Parks to submit a grant application to the Clean Ohio Conservation Fund for a grant administered by the Ohio Public Works Commission. The grant program requires a 25% local match. The total amount of the project is \$460,283.00. The grant amount is \$340,607.00

The Grant for the acquisition of property in the Big Walnut Creek corridor to preserve high quality habitat, vernal pools, and preserve the Natural buffer in the floodplain to aide in flood abatement. This parcel is adjacent to parkland and a continuation of the Big Walnut Creek Corridor located on the Mason Run tributary and the main stem of Big Walnut near Lockbourne.

The floodplain is maintained for no loss of flood storage function, habitat, particularly forested vernal pools are preserved, and the wooded buffer/trees are preserved to assist in air filtration and flooding. The Corridor acquisition supports trail development, which had the highest rating of recreational activity in the CRPD 2003 survey. The Clean Ohio grant program preserves valuable greenspace in communities and aids sustainability.

A subsequent ordinance to authorize the grant is required before the City will obligate its funds.

Emergency Justification

The Resolution of Support is required to be submitted with the grant application. The Deadline for the application is October 30, 2009.
