The Columbus City School District ("District") is engaged in a 15 year facilities master plan to upgrade the District's schools. Issue 2, a 2002 bond issue, provided funding for the first two segments of the master plan and resulted in the District constructing and/or reconstructing 35 schools. Planning for the third segment of the master plan continues today. While developing plans for proposed upgrades at the various school sites the District identified several rights-of-way currently owned by the City of Columbus that were needed to successfully complete the proposed upgrades. The District's Department of Real Estate and Shared Facilities contacted the Department of Public Service, Division of Transportation, asking that the City transfer the following excess and/or unimproved rights of way ("rights-of-way") to them: 1) a 7 ½ foot wide strip off the west side of Eighteenth Street from Thurman Avenue to the alley south of Stewart Avenue; 2) that portion of the alley south of Weisheimer Road from Sharon Avenue to Colerain Avenue not previously vacated; 3) the alley west of Ohio Avenue from the alley south of Mt. Vernon Avenue to its southern terminus; 4) that portion of Market Street from 22<sup>nd</sup> Street east to the first alley west of Ohio Avenue; 5) the alley east of Wayne Avenue from Eakin Road north to Vadis Street; 6) the alleys from West State Street to West Town Street and from Avondale Avenue to Hawkes Avenue; 7) Eulalia Road from Urana Avenue north to the alley north of Urana Avenue and the alley north of Urana Avenue from Atwood Terrace to Eulalia Road; 8) that portion of Engler Street between 4<sup>th</sup> and 5<sup>th</sup> Streets.

Per current Division of Transportation practice, comments were solicited from interested parties, including City departments, private utilities and applicable area commissions, before it was determined that subject to the retention of general utility easements for those

utilities currently located within these rights-of-way the transfer of these rights-of-way will not adversely impact the City.

The Land Review Commission has notified the Division of Transportation that they do not feel it is necessary for them to review right-of-way transfers to the District and then make recommendations to City Council; rather they feel the recommendations can come directly from the Department of Public Service. The Director of the Department of Public Service, in cooperation with the Mayor's office is recommending the transfer of these rights-of-way to the District at no charge in recognition of the Mayor's initiative to help the District as they provide more efficient and safer buildings for the students of the Columbus City Schools.

To authorize the Director of the Department of Public Service to execute those documents required to transfer the unimproved and/or excess rights-of-way more fully described in the body of this legislation to The Board of Education of the Columbus City School District at no charge; and to waive the Land Review Commission and competitive bidding provisions of Columbus City Codes.
