

Legislation Text

File #: 1234-2024, **Version:** 1

This legislation authorizes the Director of Public Utilities to renew the contract with SGI Matrix, LLC for security system parts, installation, maintenance, monitoring, repair, and support services for both new installations and existing security equipment for various locations of the Department of Public Utilities.

The Department of Public Utilities currently uses the Frontier access control system to secure many of its facilities. This contract provides for the parts, service and maintenance of all access control products under the Frontier Security brand, including but not limited to badge readers, reader control modules, serial boards, reader distribution panels, Matrix subsystem gateways, door controllers, building controller items, and all associated connections.

Batteries and building controllers are considered consumables and therefore not covered under the maintenance services. Building controllers are considered end-of-life items and must be replaced with new installs rather than repairs. This agreement provides for the repair, replacement, and servicing of all accessible components and devices, panel and peripheral component replacement for the associated electronic systems, emergency service calls, and 24 hours a day, 7 days a week telephone support.

SGI Matrix, LLC has installed all of the badge readers and has maintained the software, subsystem, and building controllers since the systems were installed at Department of Public Utilities facilities. SGI Matrix utilizes KNS Services as a subcontractor on the project to run cabling and place the equipment, but SGI Matrix, LLC will provide installation, final hook-up, and testing and programming of devices.

Due to the proprietary nature of the security software and compatibility of existing security equipment, it is in the best interest of the City to waive the provisions of competitive bidding and renew the contract with SGI Matrix, LLC.

Ordinance 1914-2022 authorized the original contract for one (1) year from the date of execution, with the option to renew annually based upon mutual agreement, budgeted funds, and approval by City Council. Ordinance 1766-2023 authorized the first one year renewal. This ordinance will authorize the second one year renewal. If unforeseen issues or difficulties are encountered that would require additional funding, a modification would be requested.

FISCAL IMPACT:

\$32,739.00 (including \$1,600.00 for contingencies) is budgeted and available for this contract.

\$29,489.00 was spent in 2022

EMERGENCY DESIGNATION:

This ordinance is being submitted as an emergency in order to avoid a lapse in provision of the necessary security equipment and services provided under the contract. Late receipt of the new quote did not allow enough time for a 30-day ordinance to be submitted and approved by City Council ahead of the current contract's expiration on June 27, 2024. As the vendor provides proprietary equipment and services for access controls at various locations of the Department of Public Utilities, a lapse in these services may pose security risks.
