Legislation Text

File #: 0496-2007, Version: 1

BACKGROUND:

The Eastmoor Main and Broad Corridor Revitalization Plan was developed to guide future public and private investments and programs for the planning area bounded by properties adjacent to Broad and Main Streets from Bexley on the west to Whitehall on the east. The plan offers guidance on economic development and organization, housing; land use, and redevelopment; development; public safety; public infrastructure; and community involvement. The Plan will be used as a principal reference document by city divisions and departments, developers, community representatives, Columbus Development Commission, and Columbus City Council when making decisions concerning the area.

An ambitious community involvement process was an integral part of the planning process. Planning Division staff members and community leaders utilized a series of community "design" charrettes to accelerate input and product. There were initial charrettes in May of 06, one for each street, in which participants identified assets and liabilities. In August, a second round of community charrettes occurred. These focused on both specific and general issues and developed proposals and solutions. Additionally, the Development Commission endorsed the Plan on March 22, 2007.

FISCAL IMPACT: No funding is required for this legislation.
