

Legislation Text

File #: 1035-2016, Version: 1

This legislation authorizes the Director of Public Utilities to enter into a planned contract modification (Mod #3) with 360water, Inc., for the purpose of providing professional training and technical services necessary to execute the Department of Public Utilities (DPU) Training and Safety Programs. This work is part of the City's continued effort to upgrade and maintain training and safety programs. The Department of Public Utilities has personnel that require training on equipment, process systems, environmental programs, Utility specific items, and safety. This contract will address those areas of need. The work may include, but is not limited to: safety training, maintenance tool training, facility process coursework development, ICP Integrated Contingency Plan updates, SPCC Spill Prevention, Control and Countermeasures Plan update; and other similar training tasks as assigned.

This third modification is part of the planned scope of services included in the contract. The original language allowed for the option to renew the contract for four (4) additional years, on a year to year basis upon mutual agreement, budget authority and approval by Columbus City Council. The funding is for approximately one (1) year or until the scope of work is completed and funds are exhausted. The contract will be extended through June 16, 2017.

Amount of additional funds to be expended: \$5,000.00

Original Contract	\$ 360,000.00
Modification #1 (2014)	\$ 405,000.00
Modification #2 (2015)	\$ 415,000.00
Modification #3 (2016)	\$ <u>5,000.00</u>
Current Proposed Total	\$ 1,185,000.00

1. Amount of additional funds:

Total amount of additional funds for this contract modification No. 3 is \$5,000.00. Total contract amount including this modification is \$1,185,000.00.

2. Reasons additional goods/services could not be foreseen:

The need for additional funds was known at the time of the initial contract, as this is a planned modification of the contract. This legislation is to encumber the funds budgeted for fiscal year 2016, for the Department of Public Utilities.

3. Reason other procurement processes are not used:

The funding provided by this contract modification is for continuation of the existing work of the contract. In so much as the majority of this work was planned for and anticipated within the original procurement, it is not reasonable or cost effective to undertake a new procurement to acquire any additional content to the coursework. No lower pricing more attractive terms and conditions are anticipated at this time.

4. How cost of modification was determined:

The contract duration is for five (5) years, and the professional services shall be funded by incremental appropriation, through the use of modifications. The original award provided funding for the initial period of 2013. Modification No. 3 provides funding for both the planned modification for 2016 and the cost of adding any additional coursework content, based on an RFP submitted by 360water, Inc., outlining the scope of work to be added and the costs associated with the addition.
