Council Variance Application: CV05-006

APPLICANT: New Victorians, Inc.; c/o Connie J. Klema, Atty.; P.O. Box 991; Pataskala, Ohio 43062.

PROPOSED USE: Two five-unit apartment buildings.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The subject site is comprised of two separate tax parcels, each of which is developed with a non-conforming five-unit apartment building. The existing apartment units consist of 420 square feet each. The requested variance would conform the existing buildings, allowing a second-story addition to incorporate a 525 square-foot expansion to each unit in the R-4, Residential District. A Council variance is required because the R-4, Residential District permits a maximum of four dwelling units in one building. The applicant requests variances for existing conditions, including lot coverage, front setbacks, rear yard, and minimum number of required parking spaces. A hardship exists in that a variance is necessary to renovate the existing buildings to allow a more adequate living area for the residents while improving the architecture and design of the buildings that better reflect the character of neighboring homes.

To grant a Variance from the provisions of Sections 3332.039, R-4, Residential district; 3332.18, Basis of computing area; 3332.21, Building lines; 3332.27, Rear yard; and 3342.28, Minimum number of parking spaces required of the Columbus City codes; for the properties located at **1104 & 1112 PERRY STREET (43201)**, to permit two existing five-unit apartment buildings on two separate parcels with reduced development standards in the R-4, Residential District (Council Variance # CV05-006).

WHEREAS, by application #CV05-006, the owner of the properties at **1104 & 1112 PERRY STREET (43201)**, is requesting a Variance to permit two existing five-unit apartment buildings on two separate parcels with reduced development standards in the R-4, Residential District; and

WHEREAS, Section 3332.039, R-4, Residential district, permits a maximum of four dwelling units in one building, while the applicant proposes to make conforming and expand both of the five-unit apartment buildings with a second-story addition; and

WHEREAS, Section 3332.18, Basis of computing area, requires that no dwelling shall occupy alone or together with any other building greater than fifty (50) percent of the lot area, while the applicant proposes to maintain a 54.1% lot coverage for the existing buildings and parking lot on each parcel; and

WHEREAS, Section 3332.21, Building lines, requires the setback to be twenty-five (25) feet, while the applicant proposes to maintain building lines of 15.8 feet for each building; and

WHEREAS, Section 3332.27, Rear yard, requires a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes to maintain no rear yard for the existing buildings and parking lot on each parcel; and

WHEREAS, Section 3342.28, Minimum number of parking spaces required, requires two (2) parking spaces per dwelling unit, or ten (10) spaces for each building, while the applicant proposes to maintain one (1) parking space per dwelling unit, or five (5) spaces for each building; and

WHEREAS, this variance will permit two existing five-unit apartment buildings with reduced development standards in the R-4, Residential District; and

WHEREAS, City Departments recommend approval and note a hardship exists because the subject site is comprised of two separate tax parcels, each of which is developed with a non-conforming five-unit apartment building. The existing apartment units consist of

420 square feet each. The requested variance would conform the existing buildings, allowing a second-story addition to incorporate a 525 square-foot expansion to each unit in the R-4, Residential District. A Council variance is required because the R-4, Residential District permits a maximum of four dwelling units in one building. The applicant requests variances for existing conditions, including lot coverage, front setbacks, rear yard, and minimum number of required parking spaces. The variance is necessary to renovate the existing buildings to allow a more adequate living area for the residents while improving the architecture and design of the buildings that better reflect the character of neighboring homes; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at **1104 & 1112 PERRY STREET (43201)**, in using said property as desired and; now, therefore:
