BACKGROUND: This Ordinance authorizes the Director of Public Utilities to renew the professional engineering services agreement with CH2M HILL Engineers for the Laboratory Upgrades Project, Capital Improvements Project No. 690554-100000, Division of Water Contract No. 2135.

The current laboratory spaces at the 910 Water Quality Assurance Lab (WQAL), the Dublin Road Water Plant (DRWP), and the Parsons Avenue Water Plant (PAWP) are more than 20 years old and are in need of upgrades to meet current laboratory, ergonomic, and architectural guidelines and standards.

The work under the original contract completed the evaluation and preliminary design report for the upgrades to the Water Quality Assurance Lab, Dublin Road Water Plant Lab and Parsons Avenue Water Plant Lab.

The first planned contract renewal provided funding for the detailed design and permitting for construction of the Water Quality Assurance Lab renovations including: new countertops and casework; sinks and fixtures; lighting; and laboratory systems such as fume hoods, refrigeration and DI water systems and design of a Lab Information Management System (LIMS).

This planned contract renewal (number 2) will provide funding for Detailed Design of the Dublin Road Water Plant (DRWP) lab upgrades and Engineering Services During Construction for the Water Quality Assurance Lab (WQAL).

The planning area is “99 - Citywide” since these facilities serve the entire service area.

Amount of additional funds to be expended: \$2,064,500.00

Original Contract Amount:	\$ 668,000.00	(PO078201)
Renewal #1:	\$1,560,000.00	(PO188775)
Renewal #2 (current):	<u>\$2,064,500.00</u>	
	\$4,292,500.00	
Renewal #'s 3-5 (future):	<u>\$1,050,000.00</u>	
Total (Orig. + Renewals):	\$5,342,500.00	

Reason other procurement processes are not used:

This work is based on the Preliminary Design Report prepared as the first phase of this project. The scope was divided into a preliminary design phase and a detailed design phase to have better understanding of the design and construction costs upon completion of the preliminary design phase. The Engineering Services During Construction is to perform technical engineering review and support during the construction phase by the consultant that prepared the design. This will supplement the services provided by the Professional Construction Manager for the WQAL project. Bidding out these services would delay the construction phase of the project and increase costs to City.

How cost of renewal was determined:

The Consultant prepared a detailed estimate of cost per task for detailed scope of work, broken down by project task. City Project management staff reviewed and approved these cost summaries.

ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT: This project is necessary to bring the facilities up to current code compliance standards for the Water Quality Assurance Lab, the Dublin Road Water Plant Lab and the

Parsons Ave. Water Plant Lab. These facilities are all essential and integral components in the Columbus area water supply and treatment infrastructure. Adequate safe supply of water is essential to economic growth and development. Public informational meetings are not anticipated for this project, all proposed work is within the secure boundaries of the water quality assurance lab or the water treatment facilities.

CONTRACT COMPLIANCE INFO: 32-0100027, expires 10/20/22, MAJ, DAX No. 6247

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against CH2M HILL Engineers.

FUTURE RENEWAL(S): Planned future renewals for this project include:

Renewal #3 Detailed Design for PAWP Lab upgrades

Renewal #4 Engineering Services During Const for DRWP Lab upgrades

Renewal #5 Engineering Services During Const for PAWP Lab upgrades

FISCAL IMPACT: A transfer of funds within the Water G.O. Bonds Fund - Fund No. 6006 will be necessary as well as an amendment to the 2020 Capital Improvements Budget.
