CPD TEXT

PROPOSED DISTRICTS: CPD, Commercial Planned District

PROPERTY ADDRESS: 3940 Stelzer Road

OWNER: Morso Holding Co.

APPLICANT: Costco

DATE OF TEXT: February 21, 2013

APPLICATION: Z13-004

1. INTRODUCTION: This zoning will add gas sales as a permitted use. CV12-042 which was approved by City Council in December 2012 to permit gas sales required a zoning application be filed on the subject site.

2. PERMITTED USES: The following uses shall be permitted: Gas Sales, Public parking garage(s) and those uses listed in Chapter 3356 (C-4, Commercial District) of Columbus City Code.

1. Excepting therefrom:

a. new or used car lot except in connection with a new automobile salesroom

3. DEVELOPMENT STANDARDS: Except as otherwise noted above and herein, the applicable development standards of Chapter 3356, C-4, Commercial District shall apply to the subject property.

A. Density, Height, Lot and/or Setback Requirements

1. Setback from Relocated Stelzer Road shall be 10 feet for all parking, loading and maneuvering areas and 10 feet for buildings.

2. All other publicly dedicated interior streets shall have a zero foot parking, loading and maneuvering setback and a zero foot building setback.

3. The setback required in Section 3A shall not apply to any pedestrian bridges, any building or structure parking garage which is connected to a pedestrian bridge as part of an elevated pedestrian system, and any motor bus shelter; the setback for said items shall be zero.

4. Entry features may be established within the subject site and may contain signage. Minimum setback for entry features shall be 5 feet from right-of-way line. In no case, shall entry features interfere with maintaining safe clear sight distances at intersections. Depending on the final form of the entry features, appropriate variances from the Columbus City Code may be required.

B. Access, Loading, Parking and/or Traffic Related Commitments

1. Parking

Due to the mixed use nature of the proposed development it would be impossible to have each use on its own tax parcel with all its required parking spaces and loading spaces. In addition the mixture of the proposed uses would make it appropriate to consider the effect of a shared parking analysis on determining the required number of parking spaces. From a zoning clearance standpoint the city shall review the number of parking spaces for the subject site as one tax parcel even if there are separate tax parcels.

The following parking ratios shall be provided unless varied by a shared parking analysis or by the Board of Zoning Adjustment:

Retail	1 parking space for every 300 sq. ft. of gross floor area
Restaurant, without pick up unit or greater than 5000 sq. ft	1 parking space for every 75 sq. ft. of gross floor area
Restaurant, with pick up unit and seating (less than 5000 sq. ft)	1 parking space for every 175 sq. ft. of gross floor area
Restaurant, with pick up unit no seating (less than 5000 sq. ft)	1 parking space for every 175 sq. ft. of gross floor area
Restaurant, patio/outdoor dining areas	Ratio is 50% of ratio required for primary structure
Office (general)	1 parking space for every 450 sq. ft. of gross floor area
Office (medical)	1 parking space for every 300 sq. ft of gross floor area
Theater	1 parking space for every 3 seats

In order to arrive at the final required parking figure it is necessary to reduce the parking demand for each use by recognizing three reduction factors that are used in the ULI shared parking analysis. The reduction factors are vacancy allowance, non-auto transportation (walk, COTA, cab, bike) and captive market allowance (% of people visiting more than one business).

<u>Reduction Factor</u>	<u>Retail</u>	<u>Restaurant</u>	<u>Office</u>	<u>Theater</u>
Vacancy	2%	0%	9%	10%
Non-auto transportation	4%	4%	4%	4%
Captive market allowance	18%	15%	15%	15%

The parking figures calculated from the ratios are then reduced by the appropriate reduction factor for each use to arrive at the total required number of parking spaces.

If the applicant wished to provide fewer parking spaces than calculated by the above method then the applicant shall prepare a shared parking analysis for the proposed project pursuant to the requirements of the City's Department of Public Service. The Department of Public Service shall review this shared parking analysis and if the Department approves the study then the applicant shall provide the number of parking spaces shown in the study. If the Department does not approve the study, then the applicant may file a variance request with the Board of Zoning Adjustment.

Public parking garages may be constructed on the subject property. The number of parking spaces within any garage(s) shall count toward meeting the overall parking requirement of the entire development on the subject property.

2. When the site is developed the property owner shall grant to the property owner of tax parcel 520-105165 (currently owned by Aladdin Temple Aonms) a non exclusive access easement in a form which is customary for the area to give said parcel access to a signalized intersection along Stelzer Road.

C. Buffering, Landscaping, Open Space and/or Screening Commitments

1. A tree row shall be established along Relocated Stelzer Road frontage containing one tree for every 30 feet of road frontage. Trees shall be equally spaced or grouped together.

2. The landscaping requirements of this section may be satisfied or offset by the preservation of existing vegetation.

D. Building Design and/or Interior-Exterior Treatment Commitments

N/A

E. Dumpsters, Lighting, Outdoor Display Areas, and/or other Environmental Commitments

1. No outside storage or display shall be permitted.

F. Graphics and Signage Commitments

1. All signage and graphics shall conform to Article 15 of the Columbus City Code, as it applies to the C-4, Commercial District classification. Any variance to the sign requirements shall be submitted to the Columbus Graphics Commission.

G. Miscellaneous

1. Site Plan

The subject shall be in the accordance with the site plan. The site plan may be slightly adjusted to reflect engineering, topographical or other site data developed at the time that development and engineering plans are completed. Any slight adjustment to the site plan shall be reviewed and may be approved by the Director of the Department of Building and Zoning Services or his or her designee upon submission of the appropriate data regarding the proposed adjustment.

2. CPD Criteria

a. Natural Environment

The natural environment of the subject site is limited to relatively flat terrain with slopes of one to two percent. Drainage flow naturally runs from the west along Stelzer Road to I-270. The Bennington series soils on site are suitable for development.

b. Existing Land Use

Existing land use consist of commercially zoned property north and east of the site; commercial development and undeveloped commercially zoned ground to the west across Stelzer Road and Aladdin Temple Shrine, a large multi-purpose facility to the south.

c. Visual Form

The visibility of the site will be considered in the design of the buildings.

d. Visibility

This area has high freeway visibility and good visibility from Relocated Stelzer Road.

e. Proposed Development

Commercial, gas sales.

f. Behavior Patterns

The proposed development will provide additional commercial opportunities to both local residents, office works and to other individuals who can access this area via the I-270 / Morse Road interchange.

g. Emissions

1. This development would conform to the City requirements for light levels, sounds, smells and dust. It is anticipated that this development would not adversely effect proposed adjacent uses in this regard.

3. Variances

- a. Section 3356.11C-4 district setback line: to reduce the building setback: along Stelzer Road from 50 feet to 10 feet.
- b. Section 3312.27 Parking setback line to reduce the parking setback: along Stelzer Road from 35 feet to 10 feet.
- c. Section 3312.49 Maximum number of parking spaces required: to reduce the minimum number of parking spaces, and to eliminate a maximum number of parking spaces. See text for parking ratio.
- d. Section 3312.03D Administrative requirements to allow parking spaces for a use to not be on the same parcel as the use. Section 3312.51 Loading spaces to allow loading spaces for a use to not be on the same parcel as the use.

SECTION 4. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
