Legislation Text

File #: 0974-2015, **Version:** 1

Currently, the Recreation and Parks Department utilizes an Activenet software application that has assisted with the automation of the department's business and management operations. The system centralizes all data and provides around-the-clock access for citizens to register for activities and facility rentals via the internet, ID cards for individuals who participate at recreation facilities and events, marketing and informational tools that help keep the citizens informed of various programs and activities, and resources for security measures at the department's recreation centers and swimming pools among various other services. This software also provides for accurate accounting and a means to audit revenues collected in relation to the above activities.

Passage of this legislation will authorize the Director of the Recreation and Parks Department to enter into a five-year contract, subject to annual approval and authorization, for maintenance and support of the Activenet software application with The Active Network, LTD in the total amount of $90,000.00 annually, for a period of June 1, 2015 through May 31, 2020. Funding for the software maintenance and support are collected via transaction service fees from the on-line users.
