File #: 2577-2021, **Version:** 2

BACKGROUND: This legislation authorizes the Director of Development to enter into a not-for-profit service contract with the Community Shelter Board in an amount up to \$4,905,000.00 of federal American Rescue Plan Act (ARPA) funds to provide financial support for 38 mental health specialists to the organization's emergency shelter and permanent supportive housing programs and modify the scope of services of each grant agreement as needed without further City Council approval in order to align with the most current version of the federal laws, regulations, and guidance.

Ordinance 1201-2021 authorized the City of Columbus to accept and appropriate approximately \$187,030,138.00 of federal American Rescue Plan Act (ARPA) funds as signed into law by the President of the United States on March 11, 2021.

Emergency shelters and permanent supportive housing locations are experiencing an increase in drug and alcohol use, violence, suicide attempts, and death because of mental health challenges and substance dependence. This trend was discernible before the COVID-19 pandemic and has accelerated during the health emergency.

These kinds of crises result in an excessive number of calls to police and emergency services, which often is not the most appropriate or cost-effective response.

Police officers are placed in dangerous and difficult situations when they are called to respond to and de-escalate volatile mental health crises. These interventions require specialized techniques that aren't addressed in-depth in law enforcement training.

The Community Shelter Board proposes to embed 38 mental health specialists trained in crisis intervention on-site in homelessness programs to reduce deaths and violence, better support our vulnerable neighbors, and reduce police and ambulance runs.

The City proposes funding for the 38 mental health specialists using American Rescue Plan Act funding. Shelter and housing partners have limited funding and are unable to establish these specialist positions with existing resources. American Rescue Plan Act funds can act as a bridge to 2025. The City will continue to work closely with the Community Shelter Board and ADAMH to develop the services and supports to meet the crisis needs of these vulnerable community members.

In coordination with ADAMH, the Community Shelter Board, Columbus State, and Netcare Access will create a workforce development program with training, certification, and continuing education to develop people with the appropriate skills and expertise to fill these new positions. These services cannot be provided by current city employees at this time.

These crisis response specialists will receive specialized training tailored to people experiencing homelessness. Shelter and housing partners will commit to hire program graduates at a competitive, above-living-wage pay rate with good benefits. Graduates will commit to serve in the homelessness system for at least 12 months.

Franklin County will also provide funding for this initiative.

~~Emergency action is requested to address the impacts of the COVID-19 health emergency.~~

FISCAL IMPACT: Funding is provided to the City of Columbus from the American Rescue Plan Act passed by

Congress and signed into law March 11, 2021.

CONTRACT COMPLIANCE: the vendor number is 004795 and expires 02/25/2023.
