1. **BACKGROUND:** This legislation authorizes the Director of Public Utilities to execute a contract with the Reynolds Inliner, LLC, in the amount of \$912,410.80 for the construction of one sanitary sewer improvement project.

This legislation authorizes the Director of Public Utilities to execute a contract with Reynolds Inliner, LLC, for the construction of the Broad Meadows Area Sanitary Improvements Project. This project will repair and rehabilitate approximately 9,525 lineal feet of 8-inch diameter, 460 LF of 10-inch diameter, 701 LF of 12-inch diameter and 360 LF of 15-inch diameter sanitary sewer pipe using the Cured-in-Place Pipe (CIPP) process; the installation of approximately 340 LF of 15-inch diameter sanitary sewer pipe; the dye testing of approximately 9 service connections; the reinstatement of approximately 276 service connections; the rehabilitation of approximately 481 VF of brick and pre-cast concrete manholes utilizing a cementitious lining system; the installation of 1 sanitary sewer manhole; the rehabilitation of 47 manhole bench and channels; the replacement of 48 manhole frames and covers; the open cut replacement of 53 LF of 8-inch sanitary sewer pipe in seven (7) locations; the by-pass pumping, maintaining traffic, and other such work as may be necessary to complete the contract in accordance with the plans (CC-14509) and specifications. This project will utilize trenchless technology methods to minimize the disruption to residences in the project area and to avoid the costlier method of traditional open trench sewer removal and replacement.

The Director of Public Utilities publicly opened five competitive bid proposals on February 28, 2007. The result of this bid was that Kokosing Construction Company submitted a bid of \$985,245.17; Insituform (MO) submitted a bid of \$895,097.24; Visu-Sewer Clean and Seal submitted a bid of \$1,002,121.69; Performance Site Company, LLC, submitted a bid of \$1,608,559.57 and Reynolds Inliner, LLC, submitted a bid of \$912,410.80. Applying the City's "Quality and Resource Factors" resulted in credits which caused Reynolds Inliner, LLC, to become the apparent low bidder.

2. **FISCAL IMPACT:** This ordinance authorizes the transfer and appropriation of funds from the Sewerage System Reserve Fund to the OWDA Loan Fund in order to fund this proposed expenditure. This transaction is a temporary measure that is required until such time as the Department is able to execute a loan agreement with the Ohio Water Development Authority and reimburse the Sewer System Reserve Fund.

3. **EMERGENCY DESIGNATION:** The Division of Sewerage and Drainage is requesting City Council to designate this legislation an emergency measure, in order to allow for the immediate execution of the subject contract. The sanitary sewer relief projects are one of several projects the City is undertaking to fulfill commitments contained within the Consent Order executed between the City of Columbus and the Ohio Attorney Generals Office. In order to ensure that the City meets the scheduling constraints of this project, it is imperative that a notice-to-proceed be issued as soon as possible.
