BACKGROUND:

This legislation authorizes the Director of the Department of Technology to modify and extend a contract with Decade Software Company LLC, established through purchase order EL000490, for the annual renewal of maintenance and support services, on behalf of Columbus Public Health, effective July 1, 2008 through June 30, 2009. The original contract was established by the Health Department in the amount of \$135,000.00; this contract provided language that allows for renewals at the conclusion of the ending term.

The Envision Windows and the EnvisionConnect software application provides Columbus Public Health the ability to operate the Environmental Health unit by providing an extensive array of services such as tracking and maintaining information associated with inspections, historical data of restaurants and other businesses, tracking sanitation standards data, vector control for mosquitoes, environmental reviews, accounts receivable/payable and billings as well as statistics and analysis regarding the Environmental Health unit.

Services provided include telephone support services, software maintenance, update training, upgrades and enhancements. Without this service Columbus Public Health would lose the ability to operate the Environmental Health unit, which could result in the failure to meet requirements mandated by the State Of Ohio.

EMERGENCY: There is an immediate need to modify and extend a contract with Decade Software to maintain on-going support and to allow for uninterrupted daily operations.

FISCAL IMPACT: In fiscal year 2004, \$43,260.00 was expended toward services provided by Decade Software for the Health Department. During fiscal year 2005, an amount of \$64,910.00 was expended and \$63,960.00 in fiscal year 2006, and in fiscal year 2007, \$85,300.00 was encumbered for related services. For this contract modification funding is available within the 2008 Department of Technology's Information Services Fund. The cost associated with this contract period, from July 1, 2008 through June 30, 2009, is \$78,300.00; bringing the aggregate contract total, including this modification, through the Department of Technology to \$445,925.00.
