**BACKGROUND:**

This ordinance authorizes the Director of the Department of Technology to renew an agreement with Information Builders, Inc., to purchase software maintenance and support services. The City requires an enterprise business intelligence platform to enable better information access and reporting from its other enterprise applications (e.g., financial system, billing systems, work order systems, etc.). The goal of this project is to continue to deliver usable, timely and accurate information to managers so they can make more informed decisions, thereby improving efficiency and effectiveness of services delivered by the City. The Department of Technology, in collaboration with other City departments, is continuing the implementation of this new technology, satisfying the needs of City departments for improved information delivery.

Information Builders provides technical support for the City's WebFocus and iWay business intelligence platform. This enables the City to access on line and telephone assistance from Information Builders technical experts to resolve issues and enhance the system. The annual support payment also entitles the City to updated versions of Information Builders software.
