BACKGROUND: This ordinance authorizes the Director of Public Safety, on behalf of the Division of Support Services, to enter into a contract with Motorola for backup maintenance service which is required to ensure continued operation of the Police and Fire 800 MHz Radio System Infrastructure starting January 1, 2015 through December 31, 2015. Included in this year's service is the new diagnostic and monitoring hardware/software equipment (Genwatch). This agreement is being entered into under the Sole Source provision provided in Section 329.07 of the Columbus City Code. Motorola is the manufacturer of this proprietary system and all of the components. Motorola is the only known company that can provide the essential backup service 24 hours a day, seven days a week, for the systems because no other contractor will have access to the product information and it is only available directly from Motorola.

The City accepted the 800 MHz Radio System April 1, 1992. The new 800 MHz Infrastructure upgrade was funded by Federal Grant money, and was installed in 2006. This contract will provide backup field engineering support from Motorola for system failures, factory repair and exchange of high tech circuit board failures, and will allow access to Motorola engineers on an around-the-clock basis. The contract covers maintenance for all the fixed end components of the 800 MHz Radio Infrastructure System.

Bid Information: Motorola is the only known provider of the required services for the upkeep of the 800 MHz Radio System.

Contract Compliance: Contract Compliance Number # 361115800 - Expires: January 24, 2016.

Emergency Designation: Emergency designation is requested to ensure the continued operation and maintenance of the City's 800 MHz Radio System Infrastructure.

FISCAL IMPACT: This ordinance authorizes an expenditure of \$79,234.44 with Motorola from the Support Services General Fund operating budget for maintenance services. The Support Services Division expended \$58,643.76 in 2013 and \$60,403.07 in 2014 for these same services. This expenditure was accounted for in the 2014 budget.

To authorize and direct the Director of Public Safety, on behalf of the Division of Support Services, to enter into a contract with Motorola for backup maintenance services required for continued operation of the Police and Fire 800 MHz Radio System Infrastructure in accordance with the sole source provisions of the Columbus City Codes; to authorize the expenditure of \$79,234.44 from the General Fund; and to declare an emergency. (\$79,234.44)

WHEREAS, the Division of Support Services is responsible for the Police and Fire communications systems; and

WHEREAS, the Division of Support Services has a need to enter into contract with Motorola for a Backup Service Maintenance Agreement for the Police and Fire 800 MHz Radio Infrastructure; and

WHEREAS, this contract is being entered into under the Sole Source Provision provided in Section 329.07 of the Columbus City Codes; and

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:
