BACKGROUND:

This legislation is to authorize the Director of the Department of Technology and the Director of the Department of Columbus Public Health to continue an annual license agreement for SAS statistical software, provided by SAS Institute, Inc., for the Department of Columbus Public Health. The original agreement (associated with purchase order ED034681) was established in December 2007, and most recently executed by authority of ordinance 1386-2014, passed June 23, 2014, through purchase order EL016231. This ordinance will provide for software licensing from August 1, 2015 through July 31, 2016 at a cost of \$9,540.00.

This license is utilized by the Office of Assessment & Surveillance at Columbus Public Health, to accomplish public health data management, processing, and analysis. Also, this license provides Columbus Public Health with public health information for decision making and policy development within the city and to external agencies/partners.

Due to the extensive scripts/programs that have already been written using the SAS language and are being used to produce the current data management, processing and analysis, it is not in the City's best interests to utilize an alternative data processing and statistical analysis solution. Switching products would require extensive staff training on a different application's processes and language, thereby decreasing efficiency and work productivity. The SAS Institute is the sole source provider of licenses, so this ordinance is being submitted in accordance with the provisions of sole source procurement of the City of Columbus Code, Section 329.07.

EMERGENCY:

Emergency action is requested to ensure that the necessary purchase order for services is established in a timely manner.

FISCAL IMPACT:

In 2013 and 2014, \$9,260.00 and \$9,260.00 was expended respectively each year for software license support in accordance with SAS statistical software by SAS Institute Inc. For this year (2015) the cost of \$9,540.00 has been budgeted and is available within the Department of Technology Internal Services Fund. The aggregate contract total including this request is \$80,050.00.

CONTRACT COMPLIANCE:

Vendor: SAS Institute Inc.
