1. BACKGROUND: This legislation authorizes the Director of Public Utilities to modify (Mod #2) an engineering agreement with CDM Smith Inc. for professional engineering services for the Wastewater Treatment Facilities Instrumentation and Control (I&C) Integration and Programming Team project. The services to be provided are professional engineering and technical services necessary for the DPU's SCADA, Telemetry, and Process Control Systems. The actual project specific detailed design and construction will generally be accomplished by others. CDM Smith, Inc. will provide technical and engineering assistance to the City as requested, during the design and construction efforts. The Scope of Work for this project will consist of the following tasks: (1) Project Management; (2) Project Development Assistance; (3) Project Integration; (4) Project Integration to Servers; (5) Intra-Site Integration; (6) Daily Engineering and Technical Support; and (7) Training. Note: for additional information regarding the various Scope of Work Tasks please see the attachment: Director's Information Sheet, Section 5.

2. MODIFICATION INFORMATION:

Amount of additional funds to be expended: \$500,000.00

2013	Original Contract	\$349,988.00
2014	Modification #1	\$711,635.00
2015	Current Modification #2	\$500,000.00
2016	Future Modification #3	<u>\$500,000.00</u>
	Estimated Total	\$2,061,623.00

Reasons additional goods/services could not be foreseen:

This Contract Modification No. 2 was planned and anticipated, and so stated in the original contract's legislation. It is a planned continuation of the services originally included within the existing contract's scope of service.

Reason other procurement processes are not used:

In so much as the majority of this work was planned for and anticipated within the original procurement, and due to the highly complex and technical nature of the engineering assistance provided to the City, it is not reasonable or cost efficient to undertake a new procurement effort to acquire these services. The lengthy process for initiating a new procurement and for a new entity to gain understanding of the project would likely cause an unacceptable project delay and additional cost.

How cost of modification was determined:

A cost proposal was provided by CDM Smith, Inc. and reviewed by the Division of Sewerage and Drainage and was deemed acceptable. The cost of this contract modification is consistent with the direct labor, overhead, and profit rates established within the original proposal.

3. **PROJECT TIMELINE:** The timeline for this contract was for the initial contract award in 2013; with three annual modifications anticipated in 2014, 2015, and 2016. The projected contract end date is for late 2016 or early 2017.
4. **EMERGENCY DESIGNATION:** An emergency designation **is not** requested at this time.
5. **CONTRACT COMPLIANCE NO:** 04-2473650 | MAJ | Exp. 12/04/2016
6. **ECONOMIC IMPACT:** The performance of this project's activities to provide engineering and technical services for CIP's at DPU facilities will help them maintain peak operational performance. If left unperformed, the required scope of work could become larger and more expensive and that could produce a major impact to the budget. No community outreach is considered for this project.
7. **FISCAL IMPACT:** This ordinance authorizes the appropriation and transfer of \$500,000.00 from the Sanitary Sewer Reserve Fund to the Sanitary Sewer General Obligation (G.O.) Bond Fund, Fund 664; to authorize the creation of sufficient budget authority; to authorize the expenditure of up to \$500,000.00 from the G.O. Bond Fund, Fund 664. Monies for this contract from the Sanitary Sewer Reserve Fund will be provided from a future Bond Sale via the transfer detailed in this ordinance.
