BACKGROUND:

This ordinance authorizes the Director of the Department of Technology (DoT) to modify an agreement with ConvergeOne, to provide system hardware equipment, software, maintenance support, and services to upgrade the City's interactive voice response (IVR) system. The IVR system supports the City's 311, Utilities, and Technology Help Desk call centers. The department via SA005214 established an agreement (EL015526) with (4) four annual renewal options under ordinance 0177-2014 passed by council March 31, 2014 to acquire IVR equipment, software, maintenance and support, and services. The most recent transaction was authorized by ordinance number 0776-2016 passed May 23, 2016 for the IVR system annual maintenance and support services.

This ordinance will authorize a total cost of \$119,151.58 with ConvergeOne to complete the IVR system upgrade which entails \$29,014.00 for hardware-IVR phones, \$10,410.08 for software and maintenance and support, \$59,727.50 for professional services, and a \$20,000.00 contingency for any unforeseen expenses that may occur. The term of the agreement will be one year from the date of a certified purchase order from the City Auditor's office.

The City is currently using version 3.0 of the Interactive Intelligence Customer Interaction Center system to meet its needs for an IVR system. There is an immediate need to upgrade that system to the 2016 version, as the current version 3.0 is at end of support. Additional new functions of the 2016 version will provide city call centers with requested new functions for the City's customer service centers. The IVR system telephones are approaching end of life and will be replaced through this project funding.

1. **Amount of additional funds to be expended: \$119,151.58**

Original contract amount (Ord. #:0177-2014): \$112,342.51

Modification#1 Term extension only (Ord. #: 2345-2014) \$ -0-

Maintenance and support agreement (Ord. #: 0185-2015):	\$115,236.33
Maintenance and Support - 2016 (Ord. #:0776-2016)	<u>\$103,878.62</u>
Total contract with two renewals (years 2014 -2016):	\$331,457.46
Modification #2 (via this Ord. 2753-2016):	<u>\$119,151.58</u>
Total aggregate amount of contract and modification(s):	\$450,609.04

2. **Reason additional goods/services could not be foreseen:**

New hardware needed as existing equipment is approaching end of life (EOL). System upgrade is required due to product growth cycle/technology migration.

3. **Reason other procurement processes are not used:**

Existing contract put into place for this function, current vendor is familiar with the City's IVR infrastructure and is providing maintenance and support at this time.

4. **How cost of modification was determined:**

Cost is based on contracted rates that were determined through the City's bid solicitation process. Technical requirements were the foundation of identifying the scope of the modification. Quote was provided by the vendor and accepted by the City of Columbus, Department of Technology.

EMERGENCY:

Emergency action is requested to ensure that the necessary purchase order for equipment and services are established in a timely manner and for the end-of-life equipment to be replaced as soon as possible.

CONTRACT COMPLIANCE NUMBERS:
