Council Variance Application: CV16-050

APPLICANT: DEV Real Estate-Design-Consulting; c/o Jonathan Barnes, Agent; Jonathan Barnes Architecture and Design; 243 North Fifth Street, Suite 200; Columbus, OH 43215; and David Hodge, Atty.; Underhill and Hodge, LLC; 8000 Walton Parkway, Suite 260; New Albany, OH 43054.

PROPOSED USE: Multi-unit residential development.

COLUMBUS SOUTH SIDE AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site consists of a 0.52± acre parcel developed with one single-unit dwelling zoned in the R-2F, Residential District. The applicant proposes to demolish the existing dwelling, and construct two five-unit apartment buildings on the same lot, resulting in a 19.23 dwelling-unit per acre density. A Council variance is necessary because the existing zoning district only permits one single-unit or two-unit dwelling per lot, and for a parcel of this size, three two-unit dwellings could be constructed on the property if the lot was split. Variances for vision clearance, area district requirements, lot coverage, fronting, building lines, maximum side yards required, minimum side yard permitted, and rear yard are included in this request. The site is within the planning area of the *South Side Plan* (2014), which recommends medium-high density (10-16 du/acre) land uses at this location. Somewhat higher densities are supportable provided a high quality design that can mitigate potential adverse impacts on existing development in the area. City Staff believes the proposed setbacks, building width and varied roof heights will provide compatibility with surrounding residential uses. Additionally, the proposal will not add incompatible or intrusive

uses to the area, and is reflective of recent urban residential infill projects.

To grant a Variance from the provisions of Sections 3332.037, R-2F, Residential District; 3321.05(B)(1), Vision clearance; 3332.14, R-2F area district requirements; 3332.18(B), Basis of computing area; 3332.19, Fronting; 3332.21 (D), Building lines; 3332.25(B), Maximum side yards required; 3332.26(F), Minimum side yard permitted; and 3332.27, Rear yard, of the Columbus City Codes; for the property located at **601 SOUTH NINTH STREET (43206)**, to permit two five-unit apartment buildings on the same lot with reduced development standards in the R-2F, Residential District (Council Variance # CV16-050).

WHEREAS, by application #CV16-050, the owner of the property at **601 SOUTH NINTH STREET (43206)**, is requesting a Variance to permit two five-unit apartment buildings on the same lot with reduced development standards in the R-2F, Residential District; and

WHEREAS, Section 3332.037, R-2F, Residential District use, permits up to two units within one dwelling on one lot, while the applicant proposes to construct two five-unit apartment buildings on the same lot; and

WHEREAS, Section 3332.14, R-2F area district requirements, requires 3,000 square feet per dwelling unit for a two-story two-unit dwelling, while the applicant proposes two five-unit apartment buildings on one lot that contains 22,500± square feet which equals 2,250± square feet per dwelling unit; and

WHEREAS, Section 3332.18(B), Basis of computing area, requires that a building shall occupy alone or together with any other building no greater than 50 percent of the lot area, while the applicant proposes 52± percent lot coverage; and

WHEREAS, Section 3332.21(D), Building lines, requires a minimum distance from the street property line of ten feet along South Ninth Street, while the applicant proposes reduced building lines of zero feet along South Ninth Street; and

WHEREAS, Section 3332.25(B), Maximum side yards required, requires the sum of the widths of the side yards to be a maximum of sixteen feet, while the applicant proposes a maximum side yard of zero feet; and

WHEREAS, Section 3332.27, Rear yard, requires that each dwelling, apartment house, or other principal building shall be erected so as to provide a rear yard totaling not less than 25 percent of the total lot area, while the applicant proposes a rear yard of zero percent; and

WHEREAS, this variance will permit two five-unit apartment buildings on the same lot with reduced development standards in the R-2F, Residential District; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and
