BACKGROUND:

This ordinance authorizes the Director of the Department of Technology to continue an agreement with Emerson Network Power for maintenance and related services on the City's Uninterrupted Power Supply (UPS) systems. The City entered into an agreement (EL006410) for Liebert UPS maintenance services, authorized by ordinance 1160-2006. Last year, that agreement was continued for another year by authority of ordinance 0394-2016, passed March 17, 2016, through purchase order PO007823. Approval of this ordinance will provide UPS maintenance services for the period April 19, 2017 to April 18, 2018, at a total cost of \$78,009.00.

Although maintenance services for Liebert UPS systems are available from other suppliers, Emerson Network Power is the only factory authorized service provider for the UPS equipment used at the City's data centers. Where alternate providers of UPS services are required to utilize Liebert technicians, Emerson's policy is to bill the end user directly and not the third party service provider; nor does Emerson support third party organizations with technical back-up or guaranteed parts availability. Given the critical need for reliable UPS systems at the City's data centers, it is in the City's best interests to contract directly with Emerson Network Power. As such, this ordinance is being submitted in accordance with the provisions of sole source procurement of the City of Columbus Code Chapter 329.

EMERGENCY:

Emergency action is requested to expedite authorization of this contract in order to facilitate and maintain uninterrupted services from the supplier.

FISCAL IMPACT:
