BACKGROUND:

This ordinance authorizes the Director of Finance and Management, on behalf of the Department of Technology (DoT), to associate all General Budget Reservations resulting from this ordinance with the appropriate State Term Schedule (STS033-534354 -51 expiring 06/30/2019) authorized for the City's use by Ordinance No. 582-87 with Halcyon Solutions, Inc. for the purchase of Tableau software licensing, first year software maintenance and support, software implementation services, and training for one year from the date of a certified purchase order from the City Auditor at a cost of $610,933.50.

This purchase includes a one-time purchase of Tableau server enterprise software license ($234,654.75) and 75 desktop licenses ($102,528.75) to be owned by the City, a one-time purchase of implementation services at a cost of $50,400.00, initial solution training for server and desktop at a cost of $133,100.00, and the first year of software license support at a cost of $90,250.00. The term of this agreement shall be for one year from the date of the purchase order. The software license support will be an ongoing annual operating expense. As such, for each year 2 through 5, the annual impact on the operating budget will be $90,250.00.

The Department of Technology has a need to acquire the Tableau software licensing to be used throughout City departments and divisions. Tableau is a data visualization and business intelligence software that provides instantaneous insight by transforming data into visually appealing and interactive visualizations. It helps the user see and understand the data quickly and find patterns that otherwise may be very difficult to detect and understand. Tableau connects to almost every database and its resulting visualizations can be easily shared with others both on and off City's web pages. The City's purchase of Tableau Server will empower the City departments to conduct data visualization on their own and on

demand.

In seeking the best pricing for the solution, DoT solicited quotes from resellers on the Carahsoft Technology Corporation State Term Schedule, Index Number STS-033, Schedule Number: 534354. Of the three resellers that responded, Halcyon Solutions, Inc. proposed the lowest pricing.

Resellers:	Amount:
1. Halcyon Solutions, Inc.	$610,933.50
2. Brown Enterprise Solution, LLC	$634,494.28
3. Diversatec .	$634,521.26

The company is not debarred according to the Federal excluded parties listing or prohibited from being awarded a contract according to the Auditor of State unresolved findings for recovery certified search.

This ordinance also authorizes the Director of Finance and Management, on behalf of the Department of Technology (DoT), to associate all General Budget Reservations resulting from this ordinance with the appropriate pre-existing Universal Term Contract/ Purchase Agreement (UTC/PA) with OnX USA LLC (PA000213 - expires 06/30/2018) to purchase computer hardware (servers and blades) totaling $297,349.62. The new computer equipment is needed both to replace aging hardware and also for planned expansion on critical infrastructure. The total cost of this ordinance is $908,283.12.

EMERGENCY:

Emergency action is requested in order to meet the June 30th deadline date whereby the manufacturer after this date will increase the price of the software licenses to the reseller. Therefore, to ensure that the necessary purchase orders for software licenses, hardware equipment, and services are established in a timely manner to get the pricing quoted and to get the project started immediately, the request is that this ordinance be passed as an emergency measure.
