It provides valuable water resource data to the City at a lower cost than providing such data by other means. The program is sponsored by the Federal Government for forty percent (40%) of the cost for most of these projects.

The agreement will provide stream gauging, reservoir gauging and groundwater monitoring for the Division of Water and the Division of Sewerage and Drainage. The Division of Water and the Division of Sewerage and Drainage solicited a quotation from the U.S. Geological Survey in accordance with Chapter 329. The period for this agreement is from October 1, 2017 to and including September 30, 2018.
