1. BACKGROUND

This legislation authorizes the Chief Innovation Officer to execute a third planned contract modification with Engage Public Affairs in an amount up to \$300,000.00 for the continued provision of communication and outreach services related to the USDOT Smart City Challenge, a collaborative effort by the U.S. Department of Transportation (USDOT) and the Paul G. Allen Family Foundation (Vulcan) seeking to “create a fully integrated, first-of-its kind city that uses data, technology and creativity to shape how people and goods move in the future.” Ordinance Number 1901-2017 authorized the Public Service Director to transfer signature authority to the Chief Innovation Officer or the Chief Innovation Officer's designee for all past, present and future Smart Columbus, USDOT Smart City Challenge, and Paul G Allen Family Foundation (Vulcan) contracts, documents, and projects.

In August of 2016 USDOT awarded the City of Columbus up to \$40 million in Federal funds (for the USDOT Smart City Challenge project) and Vulcan awarded the City up to \$10 million in private grant funding (for the Vulcan Smart City Challenge project) to assist in implementation of the City's proposal to demonstrate how advanced data and intelligent transportation systems (ITS) technologies and applications can be used to reduce congestion, keep travelers safe, protect the environment, respond to climate change, connect underserved communities, and support economic vitality. Pursuant to the agreement signed with USDOT effective August 30, 2016, the City of Columbus is to contribute \$8,000,000.00 in cost-share monies as part of the USDOT Smart City Challenge project.

Ordinance 1900-2016 authorized the Director of the Department of Public Service to initiate a procurement effort that resulted in the award and execution of a professional services contract with Engage Public Affairs in the amount of up to \$125,000.00 for the provision of communication and outreach services related to the USDOT Smart City Challenge.

Ordinance 2966-2016 authorized the execution of the first planned contract modification to fund work for the continuation of the communication and outreach efforts (called Task 2) related to the USDOT Smart City Challenge. It was stated in 2966-2016 that additional contract modifications were expected on an annual or task basis throughout the

term of the Smart City Challenge project.

Ordinance 1715-2017 authorized the execution of the second planned contract modification to perform communication and outreach tasks for the USDOT Smart City Project. It was planned to provide additional funding to finish Task 2 and to fund Task 3 work.

To this point the City has not paid any USDOT Smart City Challenge project expenses with City cost share funds. The purpose of this third planned contract modification is to switch the funding source for the USDOT Smart City Challenge communications and outreach work from USDOT grant funding to City cost share funding. Additional contract modifications are expected on an annual or task basis throughout the remainder of the Smart City Challenge funding program, or to switch funding sources between USDOT grant funding and City cost share contributions.

This is a budgeted item within the Department of Public Services' 2017 Capital Improvement Budget. Funds in the amount of \$300,000.00 are available for this project in Fund 7704, the Streets and Highways Bond Fund. An amendment to the 2017 Capital Improvement Budget is required to establish sufficient budget authority for the project.

4. EMERGENCY DESIGNATION

Emergency action is requested to allow for the timely execution of the aforementioned contract modification so as to preclude any disruption in the provision of services related to the Smart City Challenge and to adhere to the terms and conditions of that program.
