AN19-001

**BACKGROUND:** This ordinance is being submitted to set forth the municipal services and zoning conditions the city of Columbus will provide upon annexation of a territory located in Norwich and Brown Townships. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. Submission of an annexation petition to Franklin County for this site is pending. A service ordinance must be passed before the annexation meeting takes place before the Board of County Commissioners of Franklin County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. Should the petition be approved by the County Commissioners, a second City ordinance accepting the annexation will be required to complete the process. *The time frames specified in the ORC require that this legislation be filed as emergency.*

**FISCAL IMPACT:** The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the City, annexation of land also has the potential to create revenue to the city.

To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN19-001) of 0.54± Acres in Franklin Township to the city of Columbus as required by the Ohio Revised Code and to declare an emergency.

**WHEREAS,** a petition for the annexation of certain territory in Franklin Township will be filed by Benjamin and Lauren Halton on February 27, 2019; and

**WHEREAS,** a hearing on said petition will subsequently be scheduled before the Board of County Commissioners of Franklin County on April 2, 2019; and

**WHEREAS,** the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory proposed for annexation

upon annexation; and

**WHEREAS**, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority to adopt an ordinance stating zoning buffering conditions; and

**WHEREAS**, properties proposed for annexation are within the Trabue/Roberts planning area; and

**WHEREAS**, upon annexation, properties will have uniform access to City services as they become available; and

**WHEREAS**, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance with the Ohio Revised Code all for the preservation of the public peace, property, health safety and welfare; now, therefore,

**BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS**

**Section 1.** That the city of Columbus will provide the following municipal services for 0.54± acres in Franklin Township upon the annexation of said area to the city of Columbus:

**Public Safety:** The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

**Sanitation:** Division of Refuse Collection personnel have made a site visit and the division has no objection to this request.

**Transportation:** Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

**Water:** The proposed annexation site will receive water service from the Division of Water. There currently is not a water main contiguous to the site to provide water service. A water main would have to be extended, at the applicant's expense, approximately 400 feet from Wilson Road in order to receive water service.

**Sewers:** All sanitary and storm sewers required shall be constructed privately by the owners and developers at their own cost and expense with no cost to the City.

**Sanitary:** There is an existing 36" sanitary mainline located in a public easement to the south of the subject parcel's south property line. The subject parcel will be required to connect to/tap this existing sanitary mainline with a private 6" sanitary service line to serve their house. This 36" mainline was built as a Capital Improvement Project, and therefore Front Footage Fees will apply, along with the capacity charge and the tap fee. The existing on-site treatment system will have to be properly abandoned/ removed after the new sanitary service line is functioning and approved for use.

**Storm:** All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and zoning codes in effect at the time of development.

All sanitary and storm sewers required shall be constructed privately by the owners/developers at their own expense with no cost to the city.

**Section 2.** If this 0.54± acre site is annexed and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Franklin Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Franklin Township. For the purpose of this section, “buffer” includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

**Section 3.** That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
