## 1. BACKGROUND

The Smart City Challenge is a U.S. Department of Transportation (USDOT) grant program seeking to “create a fully integrated, first-of-its kind city that uses data, technology and creativity to shape how people and goods move in the future.” In 2016, the City of Columbus, acting through the Department of Public Service, applied for and won the Smart City Challenge, receiving a \$40 million dollar grant from USDOT and a \$10 million grant from the Paul G. Allen Family Foundation (Vulcan).

Some aspects of the Smart City Challenge will be performed by an internal, interdepartmental City team coordinated through the Smart Columbus Program Management Office (PMO). The intent of the Smart City Challenge - IT Professional Services project is to provide the PMO with critical technical resources related to the design and implementation of the Smart Columbus Operating System (SCOS), which is envisioned to scale to be the citywide data management platform for public and private data collected during the Smart City Challenge.

Ordinance 1901-2017 authorized the Public Service Director to transfer signature authority to the Chief Innovation Officer or the Chief Innovation Officer's designee for all past, present and future Smart Columbus, USDOT Smart City Challenge, and Paul G Allen Family Foundation (Vulcan) contracts, documents, and projects.

Pursuant to Ordinance 0820-2018, the Department of Public Service initiated a procurement effort that resulted in the award and execution of a professional services contract with Pillar in the amount of up to \$2,500,000.00 for the provision of various IT services related to the Smart City Challenge.

Original contract amount: \$2,500,000.00 (Ord. 0820-2018, PO116406)  
Total Modification No. 1: CANCELLED

Total Modification No. 2:	\$2,500,000.00 (Ord. 2125-2018)
This Modification No. 3:	<u>\$2,500,000.00</u>
Total Contract amount including all modifications:	\$7,500,000.00

This legislation authorizes the assignment of all past, present, and future business done by the City of Columbus with Pillar Technology Group, LLC. to Accenture LLP and will add funding to the original contract to allow for the continuation of requisite services by Pillar in accordance with the USDOT schedule. This change will reflect a company name change for all contracts and purchase orders established with Pillar Technology Group, LLC.

Due to the nature of the USDOT and Vulcan grant reimbursements, professional support for the Smart City Challenge Program will be awarded in annual funding phases. Additional contract modifications are expected on an annual basis throughout the four-year Smart City Challenge grant period. Legislation authorizing the Chief Innovation Officer to execute another planned contract modification with Accenture is projected to be brought before City Council for approval by the end of September 2019.
