BACKGROUND:

This ordinance enacts changes in the Columbus City Codes relating to deposits and investments and Title 11, the water, sewer and electricity Code. The changes in the Code will permit the City of Columbus to update and refine its Code, the result of the Treasury Investment Board and Depository Commission's review of recommendations from its investment advisor. In addition, Code changes included in this ordinance remove the references to the Office of the Sinking Fund in Title 11 and elsewhere, that were authorized by ordinance 1747-2014 but which still remain in the Code.

The aforementioned changes were authorized at a joint meeting of the Depository Commission and Treasury Investment Board, on May 24, 2019 subject to the approval of Columbus City Council.

Emergency action is requested for this ordinance to effectuate the changes as soon as is possible.

FISCAL IMPACT: No funding is required for this legislation.

To amend and repeal various sections of Chapters 321, 323, 325, 327 and Title 11 of the Columbus City Codes relating to deposits, bonds, and investments in order to update language and remove references to the Office of the Sinking Fund; and to declare an emergency.

WHEREAS, the proposed changes will update the Columbus Code that relate to the City's investments, bonds and deposits, and will remove the remaining references to the Office of the Sinking Fund; and

WHEREAS, the changes have been authorized by a joint meeting of the Depository Commission and Treasury

Investment Board on May 24, 2019 subject to the approval of Columbus City Council; and

WHEREAS, an emergency exists in the usual daily operation of the City Auditor in that it is immediately necessary to amend various provisions of the Columbus City Codes relating to deposits, bonds and investments in order to update language and remove the remaining references to the Office of the Sinking Fund, without delay thereby preserving the public health, peace, property, safety and welfare; now therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the existing Section 321.08 of the Columbus City Codes is hereby amended to read as follows:

321.08 - Security requirements for depositories.

Banks receiving deposits shall furnish collateral securities in an amount at least five (5) percent greater than the maximum sum to be deposited. Eligible collateral securities furnished must be of the type described in Ohio R.C. 135.18 entitled "Security for repayment of public deposits." Eligible collateral shall also include such insurance as may be provided by the Federal Deposit Insurance Corporation. If any bank to which an award is made shall fail to transfer and deliver the collateral securities herein required to the acceptance of the commission within five (5) days after such award is made, the commission may then award the use of such money to any other bank whose bid has been received and which offers the next highest rate of interest, or in its discretion may seek further bids. Any successful bidder may, at any time, with the consent and approval of the city treasurer substitute any eligible security acceptable to the commission for that first offered or given.

An institution designated as a public depository may, by written notice to the commission and to the city treasurer, designate a qualified trustee satisfactory to the commission and deposit the eligible securities required by this section with the designated trustee for safekeeping for the account of the city treasurer and the institution as a public depository, as their respective rights to and interest in such securities may from time to time appear and be asserted by written notice to or demand upon the trustee. In such case, the treasurer shall accept the written receipt of the designated trustee, describing such securities, as and for a pledge of such described securities, and issue to the commission his written acknowledgment to that effect, keeping a copy thereof in his office. Thereupon the securities described in such trustee's receipt shall be deemed to have been pledged with the city treasurer and to have been deposited ~~with him~~.

SECTION 2. That the existing Section 321.081 of the Columbus City Codes is hereby amended to read as follows:

321.081 - Optional pledging requirements-Trustee for safekeeping of securities-Sale upon default.

(A) As used in this section:

- (1) "Public depository" means that term as defined in Ohio R.C. 135.01, but also means an institution which receives or holds any public deposits as defined in Ohio R.C. 135.31.
- (2) "Public deposits," "public moneys," and "treasurer" mean those terms as defined in Ohio R.C. 135.01, but also have the same meanings as are set forth in Ohio R.C. 135.31.
- (3) "Subdivision" means that term as defined in Ohio R.C. 135.01, but also includes a county and the city of Columbus.

(B) In lieu of the pledging requirements prescribed in Section 321.08 of the Columbus City Codes, an institution designated as a public depository at its option may pledge a single pool of eligible securities to secure the repayment of all public moneys deposited in the institution and not otherwise secured pursuant to law, provided that at all times the total value of the securities so pledged, based on the valuations prescribed in subsection (C) of this section, is at least equal to one hundred five (105) percent of the total amount of all public deposits to be secured by the pooled securities, including the portion of such deposits covered by any federal deposit insurance. In the alternative, the city treasurer may authorize the institution to use the Ohio Pooled Collateral program as set forth in R.C. 135.182. Each such institution shall carry in its accounting records at all times a general ledger or other appropriate account of the total amount of all public deposits to be secured by the pool, as determined at the opening of business each day, and

- the total value of securities pledged to secure such deposits.
- (C) The following securities, at the specified valuations, shall be eligible as collateral for the purposes of division (B) of this section, provided no such securities pledged as collateral are at any time in default as to either principal or interest:
- (1) Obligations of or fully insured or fully guaranteed by the United States or any federal government agency: at face value;
 - (2) Obligations partially insured or partially guaranteed by any federal government agency: at face value;

 - (4) Obligations of any state, county, municipal corporation, or other legally constituted authority of any state, or any instrumentality of any state, county, municipal corporation, or other authority, which are secured as to the payment of principal and interest by the holding in escrow of obligations of the United States for which the full faith and credit of the United States is pledged: at face value;
 - (5) Obligations of this state, or any county or other legally constituted authority of this state, or any instrumentality of this state, or such county or other authority: at face value;
 - (6) Obligations of any other state: at ninety (90) percent of face value;
 - (7) Obligations of any county, municipal corporation, or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation, or other authority: at eighty (80) percent of face value;
 - (8) Notes representing loans made to persons attending or planning to attend eligible institutions of education and to their parents, and insured or guaranteed by the United States or any agency, department, or other instrumentality thereof, or guaranteed by the Ohio Student Aid Commission pursuant to Ohio R.C. 3351.05 to 3351.14: at face value;
 - (9) Any other obligations the treasurer of state approves: at the percentage of face value he prescribes;
 - (10) Shares of no-load money market mutual funds consisting exclusively of obligations described in division (C) (1), (2), or (3) of this section and repurchase agreements secured by such obligations: at face value.
- (D) The state and each subdivision shall have an undivided security interest in the pool of securities pledged by a public depository pursuant to division (B) of this section in the proportion that the total amount of the state's or subdivision's public moneys secured by the pool bears to the total amount of public deposits so secured.
- (E) An institution designated as a public depository shall designate a qualified trustee and deposit with the trustee for safekeeping the eligible securities pledged pursuant to division (B) of this section. The institution shall give written notice of the qualified trustee to any treasurer or treasurers depositing public moneys for which such securities are pledged. The treasurer shall accept the written receipt of the trustee describing the pool of securities so deposited by the depository, a copy of which also shall be delivered to the depository.
- (F) Any federal reserve bank or branch thereof located in this state, without compliance with Ohio R.C. 1109.03, 1109.04, 1109.17, and 1109.18 and without becoming subject to Ohio R.C. 1109.15 or any other law of this state relative to the exercise by corporations of trust powers generally, is qualified to act as trustee for the safekeeping of securities, under this section. Any institution mentioned in Ohio R.C. 135.03 or 135.32(A) which holds a certificate of qualification issued by the Superintendent of Financial Institutions or any institution complying with Ohio R.C. 1109.03, 1109.04, 1109.17, and 1109.18 is qualified to act as trustee for the safekeeping of securities under this section, other than those belonging to itself or to an affiliate as defined in Ohio R.C. 1101.01(A). Upon application to him in writing by any such institution, the Superintendent shall investigate the applicant and ascertain whether or not it has been authorized to execute and accept trusts in this state and has safe and adequate vaults and efficient supervision thereof for the storage and safekeeping of such securities. If the Superintendent finds that the applicant has been so authorized and does have such vaults and supervision thereof, he shall approve the application and issue a certificate to that effect, the original or any certified copy of which shall be conclusive evidence that the institution named therein is qualified to act as trustee for the purposes of this section with respect to securities other than those

belonging to itself or to an affiliate.

- (G) The public depository at any time may substitute, exchange, or release eligible securities deposited with a qualified trustee pursuant to this section, provided that such substitution, exchange, or release does not reduce the total value of the securities, based on the valuations prescribed in division (C) of this section, to an amount that is less than one hundred five (105) percent of the total amount of public deposits as determined pursuant to division (B) of this section.
- (H) Notwithstanding the fact that a public depository is required to pledge eligible securities in certain amounts to secure deposits of public moneys, a trustee shall have no duty or obligation to determine the eligibility, market value, or face value of any securities deposited with the trustee by a public depository. This applies in all situations including, but not limited to, a substitution or exchange of securities, but excluding those situations effectuated by division (I) of this section in which the trustee is required to determine face and market value.
- (I) If the public depository fails to pay over any part of the public deposits made therein as provided by law and secured pursuant to division (B) of this section, the treasurer shall give written notice of this failure to the qualified trustee holding the pool of securities pledged against public moneys deposited in the depository, and at the same time shall send a copy of this notice to the depository. Upon receipt of such notice, the trustee shall transfer to the treasurer for public sale such of the pooled securities as may be necessary to produce an amount equal to the deposits made by the treasurer and not paid over, less the portion of such deposits covered by any federal deposit insurance, plus any accrued interest due on such deposits; however, such amount shall not exceed the state's or subdivision's proportional security interest in the market value of the pool as of the date of the depository's failure to pay over the deposits, as such interest and value are determined by the trustee. The treasurer shall sell at public sale any of the bonds or other securities so transferred. Thirty (30) days notice of such sale shall be given in a newspaper of general circulation at Columbus, in the case of the treasurer of state, and at the county seat of the county in which the office of the treasurer is located, in the case of any other treasurer. When a sale of bonds or other securities has been so made and upon payment to the treasurer of the purchase money, the treasurer shall transfer such bonds or securities whereupon the absolute ownership of such bonds or securities shall pass to the purchasers. Any surplus after deducting the amount due the state or subdivision and expenses of sale shall be paid to the public depository.
- (J) Any charges or compensation of a designated trustee for acting as such under this section shall be paid by the public depository and in no event shall be chargeable to the state or subdivision or to the treasurer or to any officer of the state or subdivision. Such charges or compensation shall not be a lien or charge upon the securities deposited for safekeeping prior or superior to the rights to and interests in such securities of the state or subdivision or of the treasurer. The treasurer and his bondsmen or surety shall be relieved from any liability to the state or subdivision or to the public depository for the loss or destruction of any securities deposited with a qualified trustee pursuant to this section.
- (K) In lieu of placing its unqualified endorsement on each security, a public depository pledging securities pursuant to division (B) of this section that are not negotiable without its endorsement or assignment may furnish to the qualified trustee holding the securities an appropriate resolution and irrevocable power of attorney authorizing the trustee to assign the securities. The resolution and power of attorney shall conform to such terms and conditions as the trustee prescribes.
- (L) Upon request of a treasurer no more often than four (4) times per year, a public depository shall report the amount of public moneys deposited by the treasurer and secured pursuant to division (B) of this section, and the total value, based on the valuations prescribed in division (C) of this section, of the pool of securities pledged to secure public moneys held by the depository, including those deposited by the treasurer. Upon request of a treasurer no more often than four (4) times per year, a qualified trustee shall report such total value of the pool of securities deposited with it by the depository and shall provide an itemized list of the securities in the pool. These reports shall be made as of the date the treasurer specifies. The city treasurer shall request the public depository and the qualified trustee to provide the information detailed in Section 321.081(L) not less than four (4) times per year and on a quarterly basis. The public depository and the qualified trustee are required to comply and provide the information detailed in Section 321.081(L).

In case of failure to sell such certificates of indebtedness as herein provided, the city auditor is hereby further authorized to issue such certificate at par to the creditors of the city in payment of the estimates and claims held by them, in the discharge of which the moneys that would have arisen had such certificates sold would have been applied.
