**1. BACKGROUND:** This Ordinance authorizes the Director of Public Utilities to renew the professional engineering services agreement with CH2M HILL Engineers, Inc. for the Parsons Avenue Water Plant Hypochlorite Disinfection Improvements Project, Capital Improvements Project No. 690487-100000, Division of Water Contract No. 2133.

The overall project will convert the PAWP disinfection process from the current gas based chlorine system to a liquid sodium hypochlorite disinfection system. CH2M HILL will provide Professional Engineering Services for the project.

The original agreement provided preliminary design services.

Renewal No. 1 (current) will provide detailed design and bidding services.

The Parson Avenue Water Plant serves multiple planning areas so this project is coded as “99 - Citywide”.

### 1.1 Amount of additional funds to be expended: \$1,632,300.00

Original Contract Amount: \$ 589,800.00 (PO050804)

Renewal #1 (current): \$1,632,200.00

Renewal #2 (future): \$1,342,000.00

Total (Orig. + Renewal #'s 1-2): \$3,564,000.00

### 1.2. Reason other procurement processes are not used:

This renewal was planned and identified in the original contracting legislation Ord. 2896-2016, which called for detailed design services and engineering services during construction.

The current consultant is familiar with the project and has completed all the preliminary design work to date. Bidding the work to another consultant will delay the project and will result in higher costs due to bringing the new consultant up to speed on the project and delay the timeline for replacing the existing chlorine gas system.

**1.3. How cost of renewal was determined:**

The Consultant prepared an estimate based on the scope of work for the detail design renewal. City Project Manager and associated staff reviewed and approved these cost summaries.

**2. ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:**

This project will address the risks associated with a gaseous chlorine system by providing a safer liquid-based storage and handling system. The potential threat of an accidental or intentional release of chlorine gas will be eliminated with this project. This work will occur within the secure area of the PAWP that is not accessible to the public, so public meetings are not anticipated.

**3. CONTRACT COMPLIANCE INFO:** 32-0100027, expires 10/15/20, MAJ, DAX No. 6247

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against CH2M HILL Engineers, Inc.

**4. FUTURE RENEWAL(S):** A contract renewal for engineering services during construction will be submitted in the future.

**5. FISCAL IMPACT:** A transfer of funds within the Water G.O. Bonds Fund will be necessary as well as an amendment to the 2019 Capital Improvements Budget.
