BACKGROUND: Columbus Public Health has been awarded a grant from the U.S. Department of Health and Human Services. This ordinance is needed to accept and appropriate \$750,000.00 in grant monies to fund the Ending the HIV Epidemic grant program, for the period March 1, 2020 through February 28, 2021. The total amount funded for this period is \$750,000.00.

The purpose of the grant program is to focus resources in jurisdictions with substantial HIV burden to implement strategies, interventions, approaches, and core medical and support services to reduce new HIV infections in the United States. The overarching goal for this initiative is to reduce new HIV infections in the United States to less than 3,000 per year by 2030.

The Health Resources and Services Administration (HRSA) has tasked CPH to improve the efficiency of the reallocation of federal funds as necessary in order to minimize unused funds to the greatest extent possible and to maximize the available services and avoid potential penalties as future carryover funds may not be permitted by HRSA. For this reason, it is necessary to authorize the Board of Health to accept any additional awards for the Ending the HIV Epidemic grant program; to authorize the appropriation of any additional awards for the Ending the HIV Epidemic grant program; and to authorize the City Auditor to transfer appropriations between object classes for the Ending the HIV Epidemic grant program.

Emergency action is requested to allow the financial transaction to be posted in the City's accounting system as soon as possible. Up to date financial posting promotes accurate accounting and financial management.

FISCAL IMPACT: The Ending the HIV Epidemic Grant Program is entirely funded by the U. S. Department of Health and Human Services and does not generate revenue or require a City match. (\$750,000.00)
