This ordinance is to authorize the Director of the Recreation and Parks Department to enter into contract with Strawser Paving Company, in the amount of \$1,045,245.55, for the construction of the Big Walnut Trail - Elk Run to Winchester Pike. This ordinance will also authorize an expenditure of \$97,023.00 for the Department of Public Service to provide Professional Construction Management Services for this project. The total expenditure is \$1,142,268.55.

Background: The development of the Big Walnut Trail - Elk Run to Winchester Pike includes the construction 0.8 miles of 10-ft wide asphalt trail from the existing trailhead in Elk Run Park, to Winchester Pike, in Southeast Columbus. The construction of the trail also includes retaining wall installation, tree plantings, and the installation of storm water management features, including culverts and an off-site detention and water quality basin. Once completed, the southern section of the Big Walnut Trail will be over 2.5 miles long, from Williams Road to a dense multi-family neighborhood on Winchester Pike. The construction project is anticipated to start on or about June 10, 2020, and all work shall be substantially completed by June 15, 2021.

The Big Walnut Trail is one of the significant greenways in Central Ohio. Long range plans for the Big Walnut corridor include building a 30-mile greenway from Hoover Reservoir to the Big Walnut Creek's confluence with the Scioto River. Planning for this corridor began several years ago as a means of connecting several thousand Columbus residents of the Elk Run/Williams Road/Winchester Pike community to the regional network. During the past 8 years, the City has acquired 4 miles of greenway corridor stretching from Three Creeks Park to Nafzger Park. The construction of Big Walnut Trail - Elk Run to Winchester Pike contributes to the long term goal for the Big Walnut corridor.

Emergency Justification: An emergency is being requested in order to enter into this contract so that the contractor can begin work by June 10, 2020 and be substantially complete with the work by June 15, 2021, as stated in the invitation for bids.

Benefits to the Public: Cycling, walking, running, and other active trail uses provide highly recognized year-round benefits to urban lifestyles. This trail segment also connects users to high quality parks, natural areas, and recreation.

Community Input/Issues: Access to trails and to parks is one of the top rated priorities noted by residents. Additionally, the department had interaction with the Southeast area community, Three Rivers civic association, MORPC's Central Ohio Greenways, and the area commissions, to help develop and gather support for extending the Big Walnut trail corridor.

Area(s) Affected:

Mideast Area Commission (57)
Far South Area Commission (64)

Master Plan Relation: The construction of the Project improves access to trails and greenways corridors and provides safe connections for nearby neighborhoods to the regional trail network. Trails are a significant component of the City's health and wellness, diversity, social equity, and conservation initiatives.

Fiscal Impact: \$1,142,268.55 is budgeted and available from within the Recreation and Parks Voted Bond Fund 7702 to meet the financial obligations of this contract.
