1. BACKGROUND

This legislation authorizes the Director of Public Service to execute a service contract with Designing Local Limited for the provision of public engagement, conceptual design, plan development, and art installation services related to the Roadway - Sullivant Avenue - Hague to I70 project.

The aforementioned project encompasses various improvements to the existing Sullivant Avenue corridor from Hague Avenue to Interstate 70. Ordinance 0675-2020 authorized the Director of Public Service to execute a professional service contract with E.P. Ferris and Associates to advance the design of necessary public infrastructure improvements along the corridor including new traffic signals, street lighting, and curb extensions/bumpouts.

The Department of Public Service desires to engage Designing Local to guide the development of a public art plan and to manage the production and installation of public artwork in that area, an effort commonly referred to as the Sullivant Bright Public Art and Parklet project. This Columbus-based business has been certified as a woman owned business enterprise by the City's Office of Diversity and Inclusion and has demonstrated experience at delivering similar projects to the City of Columbus, having been previously commissioned by the Department of Development to develop the High Street Strategic Public Art Plan and by the Recreation and Parks Department to design improvements to the Tuttle Park lower fields.

The completion of the Sullivant Bright Public Art and Parklet project must align with the current schedule outlined for the design and construction of planned public infrastructure improvements because the artistic elements will be integrated into components of said improvements. This critical coordination of services effectively precludes a formal solicitation process because the design phase of the Roadway - Sullivant Avenue - Hague to I70 project already has commenced and

construction is slated to begin next year, necessitating the approval of a bidding waiver to allow for the execution of the proposed service contract with Designing Local.

A contract modification may be required to add funds for a proposed decorative lighting project on the Interstate 70 underpass. This decorative lighting project will require final approval from the Ohio Department of Transportation (ODOT). The final cost for the decorative lighting project cannot be determined until its design is completed and ODOT has approved any proposed work. An ordinance requesting Council's approval to modify the contract for the decorative lighting project will be submitted if it is decided to move forward with that part of the project.

2. CONTRACT COMPLIANCE INFORMATION

The contract compliance number for Designing Local is CC020995 and expires January 25, 2021.

3. BID WAIVER

The Department of Public Service is seeking Council approval under City Code Section 329 to waive competitive bidding to facilitate the execution of a service contract with Designing Local because there is an immediate need to align the production and installation of public artwork with the design and construction of needed public infrastructure improvements, and Designing Local has successfully completed similar projects for other City Departments.

4. FISCAL IMPACT

Funding in the amount of \$249,875.00 is available within Fund 7766, the Street and Highway Improvements Non-Bond Fund, within the Department of Public Service. An amendment to the 2019 Capital Improvement Budget is necessary for the purpose of providing sufficient budget authority for the proper project. It is necessary to transfer funds between projects within Fund 7766 to align cash with the proper project. These funds will need to be appropriated.

5. EMERGENCY JUSTIFICATION

Emergency action is requested to facilitate the execution of the service contract so as not to hinder the delivery of services integral to the completion of the Roadway - Sullivant Avenue - Hague to I70 project and to meet community commitments for the project.

To amend the 2019 Capital Improvement Budget; to authorize the transfer of cash between projects within the Street and Highway Improvements Non-Bond Fund; to authorize the appropriation of funds within the Street and Highways Improvements Non-Bond Fund; to waive the competitive bidding requirements of City Code Chapter 329; to authorize the Director of Public Service to execute a service contract with Designing Local Limited for the design and installation of public art along the Sullivant Avenue corridor; to authorize the expenditure of up to \$249,875.00 from the Street and Highway Improvements Non-Bond Fund to pay for the contract; and to declare an emergency.
