### 1. BACKGROUND

This ordinance authorizes the Finance and Management Director to associate all general budget reservations resulting from this ordinance with the current, pending, and future Universal Term Contract Purchase Agreements listed below for traffic management and control for the Department of Public Service or per the terms and conditions of informal or formal bids conducted for one-time buys for pavement marking materials, sign upgrades or traffic commodities and accessories as necessary, or to utilize current, pending and future ODOT contracts for school flasher commodities.

The Department of Public Service utilizes pavement marking materials, sign manufacturing materials, school flashers, traffic signal commodities, and a variety of traffic management and control commodities throughout the city. These supplies and materials are necessary to ensure traffic safety throughout the City of Columbus. Universal term contracts have been completed for these commodities, and one-time bids can also be utilized for the purchase of traffic commodities as necessary. It has also been determined it is in the best interest of the city to purchase school flashers through the Ohio Department of Transportation (ODOT) Contract 063.

The dollar amount of purchases that may need to be made against individual universal term contracts is unknown at this time as it depends upon breakage, equipment failures, and other factors. It is anticipated the Department of Public Service will need to expend more than \$100,000.00 in a fiscal year to purchase from some universal term contracts established for traffic management and control for the Department of Public Service. Per City Code 329.19(g), City Council approval is required for the expenditure of \$100,000.00 or more from a universal term contract in a fiscal year. That approval will be requested by this ordinance.

## **2. FISCAL IMPACT:**
