On November 9, 2020, ordinance 2527-2020 authorized the City of Columbus, Department of Technology, to enter into a Memorandum of Understanding with Columbus Partnership (Partnership) to reimburse the Partnership \$500,000.00 in CARES Act funding for the purchase of technology and services in support of remote learning for K-12 students. This was done as part of the city and the Partnership's efforts to provide remote connectivity for Columbus' K-12 students.

This ordinance authorizes amending ordinance 2527-2020 to increase the dollar amount of the reimbursement by \$450,000.00, from \$500,000.00 to \$950,000.00

This ordinance also transfers \$100,000.00 from object class 02 and \$420,000.00 from object class 06 to object class 03 within the Department of Technology, federal CARES act fund for the above-stated purpose.

K-12 public education statewide and within the City of Columbus in the midst of a teaching and learning paradigm shift that began before the Covid-19 pandemic. This shift expanded the traditional notion of the public classroom to an extended, or blended learning approach where a student's education is augmented with rich K-12 content outside of the classroom.

The Covid-19 pandemic rapidly changed and reinforced the need to move to a virtual and blended learning approach to public education. In the 2019-2020 and 2020-2021 school years, primary and secondary classrooms statewide were closed by executive order of the Governor due to Covid-19. Public schools across Ohio and the nation, continue to operate in a remote education or hybrid-learning models which require robust residential broadband connectivity to enable student access and learning.

With the on-going and ever-changing nature of Covid-19 locally, the need for various aspects of remote or blended

learning for all K-12 students in Columbus continues.

As part of Community's broadband outreach, and in order to provide residential connectivity for K-12 households, the City and Partnership continue to explore alternative residential broadband connectivity technologies which may provide K-12 households with low-cost, affordable broadband options. In working towards this goal, Ordinance 2527-2020 was passed on November 9, 2020. This ordinance authorized entering into a Memorandum of Understanding with Columbus Partnership (Partnership) to reimburse the Partnership \$500,000.00 in CARES Act funding for the purchase of technology and services in support of remote learning for K-12 students. This ordinance amends 2527-2020 to add \$450,000.00 to the reimbursement amount, for a total reimbursement of \$950,000.00. This reimbursement may be made in a single or in multiple disbursements.
