1. BACKGROUND

The City of Columbus, Department of Public Service, received a request from the property owner, VS State Street, LLC, asking that the City allow 3 canopies to encroach into the public right-of-way. These encroachments will be within the public right-of-way located along the south side and in front of 21 East State Street. This project is to enhance the entrance of the building. These canopies are located within an easement as described below and with the attached exhibit. The following legislation authorizes the Director of the Department of Public Service to execute those documents necessary for the City to grant the encroachment easements to legally allow these items to be placed within the public rights-of-way. Installation of these elements will enhance the area and fit into the architectural desire. A value of \$500.00 for the encroachment easements was established.

2. FISCAL IMPACT

There is no cost to the City to grant the easements. The City will receive a total of \$500.00, to be deposited in Fund 7748, Project 537650, for granting the requested encroachments.
