**Background:** This ordinance authorizes the Director of the Recreation and Parks Department to enter into contract with National Water Services, LLC for the Raymond Golf Course Pump Replacement - Hole 10 Project. The contract amount is \$51,965.00, with a contingency of \$5,100.00, for a total of \$57,065.00 being authorized by this ordinance.

With approximately 40,000 rounds of golf played annually, Raymond Memorial Golf Course produces the highest number of rounds of all six of the Columbus Recreation and Parks Department's golf courses. The irrigation and well pump that powers the irrigation system began to decline over the past couple of years. It is currently inoperable and in need of emergency repair to get it in operation again before the peak of the golf season and summer. Irrigation is critical to our golf courses in order to provide the best possible playing surfaces to our guests. Also, the well from which we pull the water has not been inspected for sustainability and, by removing the pump and motor for replacement, this project offers us the opportunity to ensure the well is capable of providing water for the irrigation system moving forward.

**Vendor Bid/Proposal Submissions (ODI designation status):**

Proposals were advertised through Vendor Services and Bid Express, in accordance with City Code Section 329, on January 29, 2021, and received by the Recreation and Parks Department on February 16, 2021. This project was also picked up by various local and regional plan rooms and distributed to their membership. Bids were received from the following companies:

National Water Services, LLC (MAJ): \$51,965.00  
Moody's of Dayton, Inc. (MAJ): \$59,875.00

After reviewing the bids that were submitted, it was determined that National Water Services, LLC was the lowest and most responsive bidder. National Water Services, LLC and all proposed subcontractors have met code requirements with

respect to prequalification, pursuant to relevant sections of Columbus City Code Chapter 329.

**Emergency Justification:** Emergency action is requested so the irrigation system can be in operation again before the peak of the golf season and the hot temperatures of summer.

**Benefits to the Public:** The water that this system provides is necessary for the operation of the golf course and to provide acceptable golf playing surfaces to the public.

**Community Input/Issues:** Golf customers demand that the playing surface be in satisfactory condition.

**Area(s) Affected:** West Scioto (37)

**Master Plan Relation:** This project supports the department's Master Plan by improving revenue producing amenities. Additionally, this project will help maximize the use of existing recreational facilities for enhanced programming and offerings.

**Fiscal Impact:** \$57,065.00 is budgeted and available from within the Recreation and Parks Voted Bond Fund 7712 to meet the financial obligations of this contract.
