BACKGROUND: In 1984, the City responded to concerns raised by the Ohio Environmental Protection Agency (EPA) and the Federal Occupational Safety and Health Administration (OSHA) regarding potential exposures to employees at the City's trash burning power plant. The City began testing employees at the Columbus Department of Health. In particular, the Occupational Safety and Health Clinic provided medical surveillance examinations, pre-placement examinations, immunizations, health and fitness assessments, clearance for respirator wear, assessment of workers' fitness for duty, consultation, hearing conservation training, and audiometric testing.

In 2006, Columbus Public Health restructured its focus from internal safety assessments to monitoring community health status, public health threats, and preventing/controlling disease. The City then shifted the operations of employee occupational safety and health medical services from Columbus Public Health to the Department of Human Resources. This was done in an effort to provide focused and coordinated occupational safety and health medical services in accordance with the Public Employment Risk Reduction Program (PERRP), OSHA, and the State Bureau of Workers Compensation (BWC).

Currently, the Occupational Safety and Health Clinic provides surveillance exams and appropriate follow up to at risk City employees, identifies occupational related disease or disability, assists in rehabilitation activities, determines fitness and suitability for assigned work, and promotes and maintains PERRP/OSHA compliance. The Clinic also promotes employee health, wellness, and quality of life by preventing and controlling disease/injury, providing assistance in injury care activities and rehabilitation activities, and providing educational and training programs promoting employee wellness and safe work practices.

This contract was re-bid in September, 2016; Mt. Carmel Health Providers was declared the successful bidder. This ordinance represents the second of three one-year contract extensions approved in the original five year contract. Every year the contract renewal is subject to approval by both parties as well as sufficient appropriation and funding.

This ordinance authorizes and directs the Human Resources Director to enter into contract with Mount Carmel Health Providers for occupational safety and health medical services for the City of Columbus. In addition, this ordinance authorizes the expenditure and establishes a maximum obligation liability of \$360,000.00 to be paid from the employee benefits fund. The contract dates are from March 1, 2023 to February 29, 2024.

Contract compliance number is 31-1382442.

FISCAL IMPACT: Funding for this contract totals \$360,000.00 and is budgeted in the 2023 employee benefits fund budget. This ordinance is contingent on the passage of the 2023 Other Funds operating budget, Ordinance 2937-2022.

Emergency action is requested in order that occupational safety and health medical services may continue without disruption.
