BACKGROUND:

The City of Columbus, Columbus Public Health, receives funding for the Ryan White Part A HIV Care Grant Program from the U.S. Department of Health and Human Services, Health Resources and Services Administration (HRSA). The purpose of this grant is to improve access to quality medical care for persons with HIV or AIDS living in Central Ohio (Franklin, Licking, Delaware, Morrow, Union, Madison, Pickaway, and Fairfield counties). The goal is that each client will achieve viral suppression, which improves their quality of life and reduces the risk of spreading the infection.

In 2021 the RWPA program for the Central Ohio area served 1,941 people living with HIV through programs including outpatient/ambulatory medical care, mental health services, medical case management, early intervention services, housing services, non-medical case management, emergency financial assistance and medical transportation.

This ordinance authorizes the Board of Health to enter into and, if needed, modify contracts with the The Research Institute at Nationwide Children's Hospital to provide HIV-related somatic and outpatient/ambulatory medical care, early intervention services, medical and non-medical case management services, medical transportation, mental health services, housing services, emergency financial assistance, and any other service allowable under the grant. The term of the contract is March 1, 2023, through February 28, 2024, with funding based on vendor estimates of annual funding requirements for allowable services. These services were advertised through vendor services RFQ023101 on October 10, 2022 and RFQ022980 on September 23, 2022 according to bidding requirements of the City Code.

Under the terms of the grant, funds must be used during the grant period or they are forfeited and CPH may be subject to penalties related to future grant funding. Previously, CPH has reallocated unused funds from vendors through appropriate contract modifications. These modifications oftentimes required additional legislation. Most recently, toward the goals of

minimizing unused funds, maximizing available services, and avoiding funding penalties, HRSA has tasked CPH with improving the process by which unused funds are reallocated. Therefore, this ordinance authorizes the Board of Health to enter into initial contracts with qualified vendors, modify the budgets of those contracts if portions of previously appropriated and encumbered funds are unused, and reallocate unused funds amongst the initial vendors without the need for additional legislation. If there is a need to enter into contracts with additional vendors, the requirements of City Code procurement will be followed.

This ordinance is submitted as an emergency in order to ensure that quality medical care continues to be available to eligible persons living with HIV/AIDS and to ensure timely payment to providers.

FISCAL IMPACT:

The contract will be entered into by Columbus Public Health with The Research Institute at Nationwide Children's Hospital for services allowable under the Ryan White Part A HIV Care Grant Program as well as comply with the RFQ and City bidding processes. This ordinance will authorize one ACPO in the amount of \$453,968.00 to encumber funds using available grant appropriations for contracts with vendors.
