This legislation authorizes the Director of Public Utilities to modify the contract with Raftelis Financial Consultants, Inc. for operational review and strategic planning consulting services. The consultant will conduct a comprehensive operational review and help in the development of a strategic plan.

The Department of Public Utilities (DPU) consists of its Director's Office, which houses sections such as human resources and fiscal, among others, as well as the Divisions of Water, Sewerage and Drainage, Power and Stormwater. In total, DPU employs just over 1,000 full-time equivalent employees. The Department serves a population of approximately 1.2 million through the operation of three water and two waste water treatment plants and maintenance of approximately 3,600 miles of waterline and 4,500 miles of sewers. The Division of Power purchases and distributes power to approximately 16,600 customers and maintains approximately 57,000 streetlights. The Department's 2023 operating budget, comprised of the enterprise funds for each of the four divisions, is over \$750 million and it also has a 6-year capital improvement plan of over \$3 billion.

The first phase of this agreement, which is near completion, included launching and managing the project, stakeholder engagement, and an effective utility management (EUM) 360 scan, which establishes a baseline of performance against various attributes of effective utility management. This next phase will move from the operational review to the strategic plan phase, and will focus on tasks leading to its final development.

PROCUREMENT:

The project was formally advertised (RFQ023079) on the Vendor Services and Bonfire websites from October 6, 2022 to November 4, 2022 in accordance with the relevant provisions of Chapter 329 of Columbus City Code. The city received six (6) responses. All proposals were deemed responsive and were fully evaluated when the Evaluation Committee met on

November 16, 2022. The committee recommended that the contract be awarded to Raftelis Financial Consultants Inc.

The original contract was for one (1) year from the date of execution, with the option to renew for an additional two (2) years on a year-to-year basis, or a portion thereof, based upon mutual agreement of the parties, availability of funding, and approval by Columbus City Council. The original authorizing ordinance is ordinance 3470-2022. It does not automatically renew and future contract modifications were anticipated.

The contract remains in effect until December 18th, 2023, so this ordinance authorizes a modification to the contract to provide funding for tasks 4-6 of the overall project.
