

Legislation Text

File #: 0950-2008, Version: 2

This legislation is necessary to increase the use of safety helmets and reduce the number of children suffering from head injuries. ~~This legislation also updates city code to reflect directives made by Ohio Revised Code in regards to the operation of a bicycle.~~

Bicycles are associated with more childhood injuries than any consumer product except the automobile.

- Each year, approximately 400,000 children under age 14 are treated for bike-related injuries;
- Approximately 10,700 children are hospitalized annually for a bicycle-related injury in the U.S. with an average length of stay of three days in the hospital;
- One-third of children hospitalized for a bicycle-related injury were diagnosed with traumatic brain injury;
- In 2006, children accounted for overbicycle related fatalities nationwide;
- In 2006, bicyclists accounted for 14 percent of all bicyclists killed and 28 percent of those injured in traffic crashes;

It is because of these statistics that cities and states nationwide have enacted bicycle helmet laws. These laws are designed to significantly increase the number of children wearing helmets and reduce the number of head injuries and deaths among children.

As of January 2006, 20 states, the District of Columbia, and at least 148 municipal localities have enacted age-specific bicycle helmet laws, including 21 in Ohio.

A helmet is the single most effective safety device for reducing the severity of head injuries and the likelihood of death following a bicycle crash. Studies have shown that bicycle helmets decrease the risk of head injury by as much as 88 percent. Studies have also demonstrated that helmet laws have resulted in an 18.4% increase in the use of helmets by children, even when the laws are not rigorously enforced.

The economic impact of not wearing a helmet is enormous. Head injuries cause extraordinarily expensive, long-term impact to taxpayers. Moreover, a study conducted by researchers at the Center for Injury Research and Policy at Nationwide Children's Hospital and published in October 2007 estimates that bicycle-related injuries among children and adolescents result in nearly \$200 million in hospital inpatient charges annually.

To amend Chapter 2173 of the Columbus City Codes, 1959, to require that all children between the ages of 1 and 18 wear a protective helmet when operating a bicycle or children's non-motorized vehicle and to maintain consistency between state laws and city ordinances governing bicycle operation.

WHEREAS, the City of Columbus has the ability to enforce all local police, sanitary, and other similar regulations as are not in conflict with the general laws of the State of Ohio pursuant to Article XVIII, Section 3 of the Ohio Constitution, and

WHEREAS, the major cause of death and permanent disability in bicycle accidents is head injury, and

WHEREAS, A study published in Injury Prevention in October 2007 that was conducted by researchers at the Center for Injury Research and Policy at Nationwide Children's Hospital in Columbus, OH, concludes that bicycle-related injuries among children and adolescents in the U.S. may be a more significant public health concern than previously estimated. The study revealed that bicycle-related injuries result in more emergency department visits for children than any other recreational sport,

with approximately 10,700 children hospitalized annually for a bicycle-related injury in the U.S. with an average length of stay of three days. Moreover, one-third of children hospitalized for a bicycle-related injury were diagnosed with traumatic brain injury, a statistic that is significant for its correlation to the number of injuries that may be preventable through the use of bicycle helmets, and

WHEREAS, helmets and child carrying devices which meet nationally recognized standards have been demonstrated to significantly reduce the numbers of head injuries in accidents, and

WHEREAS, the Council is desirous of adopting new regulations to protect persons under the age of 18 from such injuries, and

WHEREAS, the Ohio General Assembly has enacted HB 389 effective 9/21/06 which consists of a revision of certain portions of Ohio's bicycle regulations, and

WHEREAS, the enactment of HB 389 has created disparity between existing City bicycle regulations and general laws of the State of Ohio, which inconsistencies, in some instances, has caused the city ordinances to potentially be in conflict with the general laws of the State of Ohio, now therefore

WHEREAS, it is the intent of these regulations to encourage the use of safety helmets among youth, and to increase education and awareness of the importance of wearing safety helmets among all persons, and

WHEREAS, while it is the duty of Department of Public Safety and the Columbus Division of Police to enforce all traffic laws within the City of Columbus, including the issuance of a summons where these laws are violated, discretion and professional judgment shall, as in all other enforcement actions, be afforded the Columbus Division of Police in enforcing the youth safety helmet requirement, and

WHEREAS, it shall be the responsibility of all City departments, in coordination with the not-for-profit and private sectors, to develop and implement the outreach, education, and awareness programs designed to increase youth safety helmet usage, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS, OHIO:

Section 1. That Chapter 2173 of the Columbus City Codes, 1959, shall be amended to read as follows:
