BACKGROUND: In 1984, the City responded to concerns raised by Ohio Environmental Protection Agency (EPA) and Federal Occupational Safety and Health Administration (OSHA) regarding potential exposures to employees at the City's trash burning power plant. The City began testing employees at the Columbus Department of Health. In particular, the Occupational Safety and Health Clinic provided medical surveillance examinations, pre-placement examinations, immunizations, health and fitness assessments, clearance for respirator wear, assessment of workers' fitness for duty, consultation, hearing conservation training, and audiometric testing.

In 2006, the Department of Health became Columbus Public Health. The entity's primary focus is monitoring community health status, identifying and addressing public health threats, enforcing laws that protect the public's health, and providing services to prevent and control disease. In the face of this change, and to provide focused and coordinated occupational safety and health medical services in accordance with the Public Employment Risk Reduction Program (PERRP), OSHA, and the state Bureau of Workers Compensation (BWC), the City of Columbus shifted the operations of employee occupational safety and health medical services from Columbus Public Health to the Department of Human Resources.

Currently, the Occupational Safety and Health Clinic provides surveillance exams to City employees at risk and appropriate follow up, identifies occupationally related disease or disability, assists in rehabilitation activities, determines fitness and suitability for assigned work, promotes and maintains PERRP/OSHA compliance, promotes health, wellness, and quality of life by preventing and controlling disease/injury, provides assistance in injury care activities and in rehabilitation activities, and provides educational and/or training programs promoting employee wellness and safe work practices.

This ordinance authorizes and directs the Director of Human Resources to enter into contract with Mount Carmel Health Systems / Occupational Health contract for occupational safety and health medical services for the City of Columbus, authorizes the expenditure and establishes a maximum obligation liability of \$360,000.00 to be paid from the employee benefits fund in the Human Resources Department. The contract dates are from March 1, 2018 - February 28, 2019. This contract was successfully re-bid in September, 2016; this ordinance represents the second year of a five year contract. Following the fifth year, the contract allows for three one year extensions if all parties are in agreement. Every year the contract renewal is subject to available appropriation and funding.

Contract compliance number is 31-1439334.

FISCAL IMPACT: Funding for this contract totals \$360,000.00 and is provided for in the 2018 Department of Human Resources' employee benefits fund budget. As stated above, this is the second year of a five year contract, which allows for three one year extensions following the fifth year. Every year, contract renewal is subject to available and adequate appropriation and funding. This ordinance is contingent on the passage of the 2018 Other Funds operating budget, Ordinance 3009-2017.

Emergency action is requested in order that occupational safety and health medical services may continue without disruption.

To authorize the Director of Human Resources to contract with Mount Carmel Health Systems / Occupational Health to provide all eligible employees occupational safety and health medical services from March 1, 2018 through February 28, 2019; to authorize the expenditure of \$360,000.00 from the employee benefits fund, or so much thereof as may be necessary, to pay the costs of said contract; and to declare an emergency.
