

Legislation Text

File #: 0592-2018, **Version:** 1

The purpose of this legislation is to authorize the Director of Public Utilities to enter into a modification of the contract with Roberts Service Group, Inc. for Electric Power Systems Maintenance Services for the various Department of Public Utilities facilities.

The Department of Public Utilities has identified various electric power equipment that requires Electric Power Systems Maintenance Services for the Division of Sewerage and Drainage, the Division of Power, and the Division of Water. The Department of Public Utilities operates and manages two (2) Wastewater Treatment Plants, a Compost Facility, a Sewer Maintenance Operations Center, sewage and storm water collection systems, three (3) Water Treatment Plants, a water distribution system and various electric substations that service the City of Columbus and its satellite communities. This modification Number 6 is for services for the Division of Power facilities. Additional Department of Public Utilities facilities may be added in the future. All facilities are located within Franklin and Delaware Counties.

The work to be performed under these specifications will be electric power distribution systems and it's components that require studies to be performed, inspection, testing, maintenance, repair and/or replacement with the majority of the work to be on industrial equipment/systems ranging from 120V to 15.5 kV. There may also be inspection, testing, studies performed, maintenance, repair and/or replacement work on >15.5kV to 138kV equipment/systems that will require a Contractor or Subcontractor to have highly specialized experience in the area of high voltage.

The Department of Public Utilities advertised Request for Proposals for the subject services in the City Bulletin in accordance with the relevant provisions of Chapter 329 of City Code. Six hundred thirty-one (631) vendors (15 MBR, 36 M1A, 2 HL1, 16 F1, 6 AS1, 556 MAJ) were solicited (SA005278), and four (4) proposals (1 F1, 3 MAJ) were received and opened on February 26, 2014. The evaluation and final ranking was based upon the criteria in the Request For Proposals and Roberts Service Group, Inc. was determined to be the most qualified responder to provide services for the Electric Power Systems Maintenance Services.

The original contract was for a period of one (1) year with three (3) one year renewal options on a year to year basis upon mutual agreement, availability of funding and approval by Columbus City Council. The contract provided for the provision that if additional DPU facilities are added, and/or if unforeseen issues or difficulties are encountered, that would require additional funding a modification would be requested. This modification is to provide the additional funding necessary for the payment of service to be provided through September 28, 2018. The current funding is for use by the Division of Power. Additional modifications will be required to add funding for the inclusion of additional facilities within the various divisions of the Department of Public Utilities as needed.
