### **1. BACKGROUND**

This legislation authorizes the modification of a service contract with Clean Fuels Ohio (CFO) to add additional funds in the amount of \$275,000.00 to the Multi-Unit Dwelling (MUD) Electric Vehicle Charging Rebate Program.

Ordinance Number 1901-2017 authorized the Public Service Director to transfer signature authority to the Chief Innovation Officer or the Chief Innovation Officer's designee for all past, present and future Smart Columbus, Smart City Challenge, Paul G Allen Family Foundation contracts, documents, and projects.

Ordinance 1863-2016 authorized the Director of Public Service to enter into agreements with and to accept grant monies and other resources from Vulcan which are to be distributed to the City over the course of four years.

Ordinance 2601-2017 authorized the establishment of a contract with Clean Fuels Ohio (CFO) and the expenditure of \$172,000.00 within the Smart City Private Grant Fund for (CFO) to issue rebates for the Multi-Unit Dwelling (MUD) Electric Vehicle Charging Rebate Program.

In 2016, the City of Columbus, acting through the Department of Public Service, pursued and won a \$10 million grant from the Paul G. Allen Family Foundation (Vulcan) in connection with the Smart City Challenge sponsored by the U.S. Department of Transportation. The purpose of that award is to enable the City to lay a practical path to replacing carbon-based fuel consumption through critical system improvements that increase safety, reduce carbon emissions, and enhance mobility.

Ordinance 1193-2017 authorized the appropriation of \$3,321,328.00 within the Smart City Private Grant Fund to support the implementation of the Smart Columbus Electrification Plan as part of the Vulcan grant. \$172,000.00 was budgeted within that plan to pay for the installation of electric vehicle charging stations in multi-unit dwelling areas, known as the MUD Electric Vehicle Charging Rebate Program.

Clean Fuels Ohio (CFO) is a non-profit organization that is a subconsultant to GPD Group on the Smart City Vulcan Charging and Decarbonization contract, approved by Council under Ordinance 1294-2017 on 6/5/17. That contract was put in place to assist with the implementation of the Smart Columbus Electrification Plan. Funds to pay for the administration of the MUD Electric Vehicle Charging Rebate Program were included in the GPD contract but the funds to pay for rebates that are to be distributed were not included in that contract. CFO was selected to distribute the rebate funds because they are familiar with the overall project, familiar with the rebate program to incentivize the installation of charging stations, and has experience running other rebate programs.

### **2. FISCAL IMPACT**

Funding in the amount of \$275,000.00 is available in Fund 7768 Smart City Private Grant Fund within the Department of Public Service for project expenditures related to the implementation of the Smart Columbus Electrification Plan. This is a budgeted item and a planned expense within the grant.

### **3. CONTRACT COMPLIANCE**

The contract compliance number for Clean Fuels Ohio is CC000257, vendor number 000257, and expires on July 11, 2020.

### **4. EMERGENCY DESIGNATION**
