1.4. How cost of modification was determined:

Cost proposals were provided by PRIME AE Group, Inc., reviewed by the Divisions of Water and Power, and deemed acceptable.

2.0 ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:

The Divisions of Water and Power do not have the personnel available to perform all of the duties necessary to administer and inspect construction of said projects; PRIME AE Group, Inc. will perform the services.

Construction Administration/Inspection services for the Cleveland Avenue Decorative Street Lighting project will consist of upgrading the street light system from Weber Rd. to Dunedin Rd. in the North Linden Planning Area (#40).

The goal of the water project is to replace or rehabilitate the existing 6-inch and 8-inch water lines that have a high break frequency. Replacement of these water lines will improve water service, decrease burden on water maintenance operations, and reduce water loss. The Neighborhood Liaison(s) has been contacted and informed of this project. Further community outreach may result through the Neighborhood Liaison Program.

3.0 FUTURE MODIFICATION(S): The original agreement was established for projects commencing 2017 through 2019. Future modifications are anticipated, but unknown at this time.
