1.0 BACKGROUND:

This legislation authorizes the Director of Public Utilities to execute a planned modification to the 2020 - 2022 Construction Administration and Construction Inspection (CA/CI) Services agreement with Stantec Consulting Services, Inc.

Funding for this modification will be for the following projects:

- East Franklinton Phase 1 Sewer Line Improvements, CIP 650560-100001, in the amount of \$172,569.09.
- East Franklinton Phase 1 Water Line Improvements, CIP 690236-100115, in the amount of \$172,569.10.
- CA-CI - General Construction, CIP 690549-10001, in the amount of \$50,000.

1.1. Amount of additional funds to be expended: \$395,138.19

Original Agreement Amount:	\$198,538.62	(PO's not established yet)
Modification 1 (current):	<u>\$395,138.19</u>	
Total (Orig. + Mod. 1)	\$593,676.81	

1.2. Reasons additional goods/services could not be foreseen:

This is a three-year agreement for fiscal years 2020 - 2022 and modifications were anticipated and explained in the original legislation under Ordinance No. 0130-2020.

1.3. Reason other procurement processes are not used:

This is a multiyear contract that will be modified as required to provide construction administration/inspection services for construction projects that bid during the three year (2020-2022) timeframe.

1.4. How cost of modification was determined:

The cost of Modification No. 1 was determined by negotiations between Stantec and the Divisions of Sewerage and Drainage and Water.

2.0 ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:

Division of Sewerage and Drainage projects include rehabilitation of existing sewers, repair to existing sewers, construction of new sewers, and construction of green infrastructure. The majority of the projects will reduce inflow and infiltration to the City's sanitary sewer system thus mitigating sanitary sewer overflows to basements and waterways. Other projects provide improvement to existing storm infrastructure to mitigate drainage/flooding issues.

Division of Water projects include replacement or rehabilitation of water lines that have a high break frequency. Replacement of these water lines will improve water service, decrease burden on water maintenance operations, and reduce water loss. The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

3.0 FUTURE MODIFICATION(S): The Department anticipates requesting additional future modifications to this contract as new construction projects begin during 2020, 2021, and 2022.

4.0 CONTRACT COMPLIANCE INFO: 11-2167170 | Exp. 8/1/21 | MAJ | DAX #462
