1.0 BACKGROUND: This legislation authorizes the Director of Public Utilities to enter into a construction contract with Complete General Construction Co. for the Hap Cremean Water Plant (HCWP) Sludge Line Improvements Project in an amount up to \$7,226,426.28; to encumber funds with the Department of Public Service for prevailing wage services in an amount up to \$2,000.00; for Capital Improvements Project No. 690510-100004, Division of Water Contract Number 2236.

The HCWP sludge disposal line was constructed in the late 1970's to provide an economical means to transfer treatment residuals from the HCWP facility to the McKinley Avenue Quarry. This sludge disposal line continues to be an essential asset to the City's largest water treatment facility. Beginning in 1997, the 12-inch diameter sludge disposal line began experiencing an increase in break frequencies. As a result, the Division of Water conducted several studies and completed various capital improvements to the sludge disposal line. A previous condition inspection identified various areas that are in need of replacement.

The project will replace portions of the 12-inch HCWP sludge force main along Morse Road, Bethel Road, and Riverside Drive.

Work on this project consists of construction of approximately 13,298 linear feet of open-cut 12-inch force main pipe and associated appurtenances, 217 linear feet of trenchless 12-inch force main pipe and associated appurtenances, 2 air-release valve vaults, sludge handling, and other such work as may be necessary to complete the contract, in accordance with the drawings, technical specifications, and City of Columbus Construction and Material Specifications as set forth in this Invitation For Bid (IFB).

Planning area: "99 - Citywide" since HCWP serves several communities.

2.0 ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:

The project will replace sections of the force main known to be structurally deficient. Replacement of these sections will reduce the risk of pipe failures and discharges to the surrounding environment. This project is part of the City's ongoing efforts to maintain a reliable supply of safe drinking water to its customers, which will result in sustainable economic growth well into the future.

3.0 CONSTRUCTION CONTRACT AWARD: The Director of Public Utilities publicly opened one (1) bid on April 29, 2020 from Complete General Construction Co. in the amount of \$7,226,426.28.

Complete General's bid was deemed the lowest, best, most responsive and responsible bid in the amount of \$7,226,426.28. Their Contract Compliance Number is 31-4366382 (expires 7/8/21, Majority) and their DAX Vendor No. is 6056. Additional information regarding this bidder, description of work, contract time frame and detailed amount can be found on the attached Information form.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Complete General Construction Co.

3.1 PRE-QUALIFICATION STATUS: Complete General Construction Co. and all proposed subcontractors have met code requirements with respect to pre-qualification, pursuant to relevant sections of Columbus City Code Chapter 329.

4.0 EMERGENCY DESIGNATION: This project's schedule has been coordinated with two Department of Public Service projects: CIP 538000-100000 - Morse & Sunbury Road Improvements and CIP 530103-100064, DR3477E - Arterial Street Rehabilitation - Morse Road Phase 1-Seward St to Stygler Road, both which have multiple funding sources. These three projects share critical path work activities in the Morse Road right-of-way corridor and are seasonally dependent, and emergency legislation is needed to maintain the planned coordination.

5.0 FISCAL IMPACT: This Ordinance authorizes the City Auditor to appropriate and transfer funds from the Water System Reserve Fund, Fund No. 6003 to the Water Supply Revolving Loan Account Fund, Fund No. 6011, in order to fund this proposed expenditure. This transaction is a temporary measure that is required until such time as the Division is able to execute a loan with the Water Supply Revolving Loan Account Fund and reimburse the Water System Reserve Fund. The loan is expected to be approved in June 2020.

A portion of funding will also come from the Water G.O. Voted Bonds Fund, Fund No. 6006, and will require a transfer of funds and an amendment to the 2019 Capital Improvements Budget.
