Council Variance Application: CV22-042

**APPLICANT:** Joss Construction Group, LLC; c/o Rebecca J. Mott; Atty.; 411 East Town Street, 2<sup>nd</sup> floor; Columbus, OH 43215.

**PROPOSED USE:** Single-unit residential development.

NEAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Disapproval. The site is comprised of four undeveloped parcels in the ARLD, Apartment Residential District. The applicant is requesting a Council variance to construct three single-unit dwellings on three reconfigured lots. A variance is necessary because single-unit dwellings are not a permitted use in the ARLD district. The request includes variances to lot width, area district requirements, and side and rear yards. The site is located within the boundaries of the *Near East Area Plan* (2005), which recommends "higher density residential/mixed-use development" land uses at this location. Staff does not support the request because the overall site design is not consistent with the *Near East Area Plan's* design guidelines, which discourages attached garages in front of dwelling units, and states that building setbacks should be similar to those of adjacent buildings. While staff supports the proposed use and the submitted building elevations, the site plan is considered incompatible with the established development pattern of the area and is therefore not supported. Staff will consider support for a site design that places buildings closer to the McAllister Avenue frontage, or driveways that provide rear access for vehicles.

To grant a Variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3333.09, Area Requirements; Section 3333.11, ARLD area district requirements; 3333.23(D), Minimum side yard permitted; and 3333.24, Rear yard, of the Columbus City Codes, for the property located at **940 MCALLISTER AVE. (43205)**, to permit three single-unit dwellings with reduced development standards in the ARLD, Apartment Residential District (Council Variance #CV22-042).

WHEREAS, by application #CV22-042, the owner of properties at 940 MCALLISTER AVE. (43205), is requesting a Variance to permit three single-unit dwellings with reduced development standards in the ARLD, Apartment Residential District; and

WHEREAS, Section 3333.02, AR-12, ARLD and AR-1, Apartment residential district use, does not permit single-unit dwelling use on newly-created parcels, while the applicant proposes to reconfigure four existing parcels into three, and construct a single-unit dwelling on each of the newly-created parcels; and

**WHEREAS**, Section 3333.09, Area Requirements, requires that no building shall be erected or altered on a lot with a width of less than 50 feet, while the applicant proposes a lot width of approximately 22.22 feet for each lot; and

WHEREAS, Section 3333.11, ARLD area district requirements, requires 2,500 square feet in area per dwelling unit, while the applicant proposes 1,665 square feet per dwelling unit; and

WHEREAS, Section 3333.23(D), Minimum side yard permitted, requires a side yard of no less than one-sixth of the

height of the building for buildings over two and one-half stories in height, or 5.52 feet for a building with a maximum height of 33.5 feet in height, while the applicant proposes side yards of 3 feet; and

WHEREAS, Section 3333.24, Rear yard, requires a rear yard totaling no less than 25 percent of the total lot area, while the applicant proposes a rear yard of approximately 8 percent of the total lot area for each new lot; and

WHEREAS, the Near East Area Commission recommends approval; and

WHEREAS, City Departments recommend disapproval of the requested Council variance. While Staff supports the proposed use and submitted building elevations, the site plan is not consistent with the *Near East Area Plan's* design guidelines and is considered incompatible to the established development pattern of the surrounding area. Staff will consider support for a site design that places buildings closer to the McAllister Avenue frontage, or driveways that provide rear access for vehicles; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 940 MCALLISTER AVE. (43205), in using said property as desired and; now, therefore:
